

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

PROTAL 7200 PART B (HARDENER)

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name PROTAL 7200 Part B (Hardener)

1.2. Relevant identified uses of the substance or mixture and uses advised against

Product Use Industrial use as a protective coating in prevention of corrosion.

Restricted Use Not intended for use by general public.

1.3. Details of the supplier of the safety data sheet

Company Denso North America

Address 9747 Whithorn Drive
Houston, TX 77095

Web www.densona.com

Telephone 1 (281) 821-3355

Fax 1 (281) 821-0304

Email info@densona.com

1.4. Emergency telephone number

Emergency telephone number (24 Hour) 1-801-629-0667

SECTION 2: Hazards Identification

2.1. Classification of the substance or mixture

2.1.1. Health
Skin Irritation – Category 1
Eye Damage – Category 1
Skin sensitizer
STOT Repeat – Category 2 Inhalation, Ingestion, Contact (Liver, Lungs, Skin, Eyes)

2.1.2. Environmental
Acute aquatic toxicity – Category 3

2.1.3. Physical
None

2.2. Label elements

Hazard pictograms

Signal Word

Danger

Hazard statement

H302 – Harmful if swallowed.
H314 – Causes skin severe skin burns and eye damage.
H317 – May cause an allergic skin reaction.
H318 – Causes serious eye damage.
H335 – May cause respiratory irritation.
H373 – May cause damage to organs (Liver, Lungs, Skin, Eyes) through prolonged or

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

Precautionary Statement: Prevention

repeated exposure if inhaled, swallowed, contacted.
H411 – Toxic to aquatic life with long-lasting effects.

P102 – Keep out of reach of children.
P202 – Do not handle until all safety precautions have been read and understood
P233 – Keep container tightly closed.
P234 – Keep only in original container.
P235 – Store in a well ventilated place. Keep cool.
P261 – Avoid breathing dust/fume/gas/mist/vapors/spray.
P262 – Do not get in eyes, on skin, or on clothing.
P264 – Wash thoroughly after handling.
P270 – Do not eat, drink, or smoke when using this product.
P271 – Use only outdoors or in a well-ventilated area.
P272 – Contaminated work clothing should not be allowed out of the workplace.
P273 – Avoid release to the environment.
P280 – Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary Statement: Response

P301+P310 – IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
P302+P352 – IF ON SKIN: Wash with plenty of soap and water.
P303+P361+P353 – IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340 – IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P314 – Get medical advice / attention if you feel unwell.
P331 – Do not induce vomiting.
P333+P313 – If skin irritation or rash occurs: Get medical advice/attention.
P337+P313 – If eye irritation persists: Get medical advice/attention.
P363 – Wash contaminated clothing before reuse.
P391 – Collect spillage.

Precautionary Statement: Disposal

P501 – Dispose of contents/container in accordance with local/national regulations.

SECTION 3: Composition/information on ingredients

3.1. Substances

Chemical Name	CAS No.	Concentration (%w/w)	Classification
N-Aminoethylpiperazine	140-31-8	40-70%	Skin Irr 2; H315 Eye Irr 2; H319 Aqua Acute/Chronic 2; H411
4,4'-Isopropylidene-diphenol	80-05-7	1-10%	(1) (2)
Reaction product: bisphenol-F-epichlorohydrin	28064-14-4	5-20%	Skin Irr 2; H315 Eye Irr 2; H319 Skin Sens 1; H317 Aqua Chronic 2; H411

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

Reaction product: bisphenol-A- (epichlorohydrin); epoxy resin (number average molecular weight < 700)	25068-38-6	5-20%	Xi; R36/38, 43 N; R51/53
4-Nonyl phenol, branched	84852-15-3	1-5%	Skin Irr 2; H315 Eye Irr 2; H319 Aqua Acute/Chronic 1; H411

NOTES:

- (1) Substance classified with a health or environmental hazard.
- (2) Substance with a workplace exposure limit.

SECTION 4: First aid measures

4.1. General advice	Seek medical advice. If breathing has stopped or is labored, give assisted respirations. Supplemental oxygen may be indicated. If the heart has stopped, trained personnel should begin cardiopulmonary resuscitation immediately.
4.2. Eye contact	Immediately flush eyes with plenty of water for at least 15 minute, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention.
4.3. Skin contact	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse. For contact with hot product, flush contaminated skin with large amounts of cold water to dissipate heat. Cover with clean cotton sheeting or gauze. Get medical attention immediately.
4.4. Ingestion	Wash out mouth with water. Remove dentures, if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposure person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
4.5 Inhalation	Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt, or waistband.

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

4.6. Most important symptoms and effects, both acute and delayed

Eye contact	Corrosive to the eyes and may cause severe damage including blindness. Causes permanent eye injury. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.
Skin contact	Corrosive. Contact may cause severe burns to skin. Symptoms may include redness, edema, drying, defatting and cracking of the skin. May cause allergic skin reaction or sensitization.
Ingestion	Harmful if swallowed. May produce burns to the lips, oral cavity, upper airway, esophagus and possibly the digestive tract. May cause abdominal pain, nausea, vomiting, or diarrhea.
Inhalation	High vapor concentrations are irritating to the eyes, nose, throat, and lungs. May cause irritation to respiratory system with throat discomfort, coughing or difficulty breathing.

SECTION 5: Firefighting measures

5.1. Suitable extinguishing media	Alcohol-resistant foam, Carbon dioxide (CO ₂), Dry chemical, or water spray. Do not use a solid water stream as it may scatter and spread fire.
5.2. Specific hazards	Decomposition products may include the following materials: carbon oxides; nitrogen oxides. Downwind personnel must be evacuated. Burning produces noxious and toxic fumes.
5.3. Special protective equipment for fire-fighters	Avoid contact with skin. Fire-fighters should wear appropriate personal protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.
5.4. Further information	Do not allow run-off from fire-fighting to enter drains or water courses.

SECTION 6: Accidental release measures

6.1. Personal precautions	No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled materials. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment (see Section 8).
6.2. Environmental precautions	Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains, and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
6.3. Methods for cleaning up	Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Use absorbent with inert material. Vacuum or sweep up material and place in a designated, labeled waste

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

6.4. Additional advice

container. Dispose of via a licensed, waste-disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Stop leak if without risk.

SECTION 7: Handling and storage

7.1. Handling

Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking or smoking. Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

7.2. Storage

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep away from heat, sparks, and flames. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

7.3. Technical precautions

Do not store in reactive metal containers.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

8.1.1. Exposure Limit Values

CAS No.

28064-14-4

25068-38-6

84852-15-3

ACGIH TLV

None established

5 mg/m³ (dust)

None established

None established

None established

8.2. Control measures / Personal Protection

8.2.1. Recommended monitoring procedures

To meet the exposure limits for the materials listed above, personal workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment.

8.2.2. Engineering measures

Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

8.2.3. Hygiene measures

or statutory limits.

Wash hands, forearms, and face after handling chemical products, before eating, smoking or using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing or discard as necessary. Ensure that eyewash stations/bottles with pure water and safety showers are close to the workstation location.

8.2.4. Respiratory protection

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Select equipment to provide protection from the ingredients in Section 3 of this document.

8.2.5. Eye protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. This may include, but is not limited to, safety glasses, goggles and face shields.

8.2.6. Skin protection

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. This equipment may include, but is not limited to, impervious gloves, gauntlets, impervious shoes/boots, and protective clothing. The breakthrough time of the selected protective glove(s), shoes and clothing must be greater than the intended use period.

8.2.7. Environmental exposure controls

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. Environmental exposure controls may also include dikes or other liquid containment devices.

SECTION 9: Physical and chemical properties

Form	Liquid	Vapor Pressure	ND
Color	Green	Relative vapor density	>1
Odor	Irritating	Relative density	1.08
Odor threshold	ND	Water solubility	Slight
pH	about 10	Partition coefficient (n-octanol/water)	ND
Freezing point	ND	Auto-ignition temperature	ND
Boiling point	ND	Decomposition temperature	ND
Flash Point	ND	Viscosity	5,500 cP @ 73°F (22°C)
Evaporation rate	N/A	Oxidizing	N/A
Flammable Limits	ND	Explosion Limits	ND

SECTION 10: Stability and reactivity

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

10.1 Stability	The product is stable. Under normal conditions of storage and use, hazardous polymerization will not occur.
10.2. Conditions to avoid	May burn but does not ignite readily. When heated, vapors may form explosive mixtures with air. Containers may explode when heated.
10.3. Materials to avoid	Reactive or incompatible with the following materials: Strong oxidizing agents, acids, alcohols, cresol, glycol, isocyanates, phenol, vinyl acetates, strong bases
10.4. Other hazards	Reacts with considerable heat release.
10.5. Hazardous decomposition products	Decomposition products may include the following materials: Carbon oxides, Nitrogen oxides, Ammonia, Toxic/Noxious fumes

SECTION 11: Toxicological information

11.1. Acute health hazard	Product: Acute oral toxicity: ND Acute dermal toxicity: ND Components: 140-31-8 Acute oral toxicity: LD50 (rabbit): 2097 mg/kg Acute dermal toxicity: LD50 (rabbit): 866 mg/kg 80-05-7 Acute oral toxicity: LD50 (rat): 3,250 mg/kg Acute dermal toxicity: LD50 (rabbit): 3,000 mg/kg 28064-14-4 Acute oral toxicity: LD50 (rat): >2,000 mg/kg Acute dermal toxicity: LD50 (rabbit): >2,000 mg/kg 25068-38-6 Acute oral toxicity: LD50 (rat): 30,000 mg/kg Acute dermal toxicity: LD50 (rat): >1,200 mg/kg 84852-15-3 Acute oral toxicity: LD50 (rat): 580 mg/kg Acute dermal toxicity: LD50 (rabbit): 2,031 mg/kg
11.2. Skin corrosion or irritation	Product: May cause skin irritation or burns. May cause sensitization in susceptible persons. Components: 140-31-8 Species: adult rabbit

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

11.3. Serious eye damage or irritation

Result: corrosive to skin
Classification: corrosive to skin

80-05-7
Result: None known.

28064-14-4
Species: adult rabbit
Result: slight to moderate irritation to skin
Classification: irritating to skin

25068-38-6
Species: adult rabbit
Result: slight to moderate irritation to skin
Classification: irritating to skin

84852-15-3
Species: rabbit
Result: severe irritation and burns
Classification: severe irritation and burns

Product: Corrosive to eyes and may cause severe damage including blindness.

Components:
140-31-8
Species: adult rabbit
Result: corrosive to eyes
Classification: corrosive to eyes

80-05-7
Result: None known.

28064-14-4
Species: adult rabbit
Result: slightly irritation
Classification: irritating to eyes

25068-38-6
Species: adult rabbit
Result: slightly irritating
Classification: irritating to eyes

84852-15-3
Species: rabbit
Result: severe irritation and burns
Classification: severe irritation and burns

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

11.4. Respiratory or skin sensitization

Product: May cause skin sensitization in susceptible persons.

Components:

140-31-8

Species: adult guinea pig

Result: Causes skin sensitization

80-05-7

Result: None known.

28064-14-4

Species: adult guinea pig

Result: Causes skin sensitization

25068-38-6

Species: adult guinea pig

Result: Causes skin sensitization

84852-15-3

Species: guinea pig

Result: not sensitizing

11.5. Germ cell mutagenicity

Product: Not likely to be mutagenic based on components.

Components: None of the components is known to have significant mutagenic effect.

11.6. Carcinogenicity

Product: Not classifiable as a human carcinogen based on components.

Components: None of the components is classified as a carcinogen.

11.7. Reproductive toxicity

Product: Not Determined.

Components: None of the components is known to have significant reproductive effects,

11.8. STOT – single exposure

Product: No data available, but irritation, sensitization and/or burns to respiratory system, skin, and eyes are likely– Lungs, Skin, and Eyes. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

Components: See Sections 11.2, 11.3, and 11.4 for specific information regarding the effects of the components.

11.9. STOT – repeated exposure

Product: No data available, but, based on components, may cause damage to organs through prolonged or repeated exposure – Liver, Lungs, Skin, and Eyes. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

11.10. Repeated dose toxicity	low levels. Product: No data available, but, based on components, Causes skin and eye irritation, damage, burns. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels. Changes to the liver, lungs, skin and eyes possible.
11.11. Aspiration toxicity	Product: Not determined. Components: Not determined.
11.12. Further information	Likely routes of exposure – inhalation; skin and eye contact.

SECTION 12: Ecological information

12.1. Ecotoxicity	Product: Remarks: Likely toxic to aquatic life based on components present. Components: 140-31-8 Toxicity to fish – 96 h LC50: >100 mg/L Toxicity to daphnia and other aquatic invertebrates – 48 h LC50: 32 mg/L Toxicity to algae – 72 h LC50: >1,000 mg/L 80-05-7 Toxicity to fish – 96 h LC50: 4.6 mg/L 28064-14-4 Toxicity to fish – 96 h LC50: >1-10 mg/L Test Type: Similar material Toxicity to daphnia and other aquatic invertebrates – 48 h EC50: >1-10 mg/L Test Type: Similar material Toxicity to algae EC50: ND 25068-38-6 Toxicity to fish – 96 h LC50: 3.1 mg/L Test type: Fathead minnow Toxicity to daphnia and other aquatic invertebrates – 48 h LC50: 1.3 mg/L 84852-15-3 Toxicity to fish – 96 h static LC50: 0.05 mg/L Toxicity to daphnia and other aquatic invertebrates – 48 h static EC50: 0.085 mg/L Toxicity to algae – 96 h ErC50: 0.41 mg/L
12.2. Persistence and degradability	Product: No data available

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

Components:

140-31-8

Remarks: <60% after 28 days.

80-05-7

Remarks: N/A

28064-14-4

Remarks: Not readily biodegradable.

25068-38-6

Remarks: 12% after 28 days.

84852-15-3

Remarks: 100% after 63 days.

12.3. Bioaccumulative potential

Product: No data available

Components: Not determined.

12.4. Mobility in soil

Product: Not determined.

Components: Not determined.

12.5. Other adverse effects

Product: Not determined. An environmental hazard cannot be excluded in the event of unprofessional handling or disposal, toxic to aquatic life.

Components: No data available

SECTION 13: Disposal considerations

13.1. Waste disposal

The generation of waste should be avoided or minimized wherever possible. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements. Avoid disposal of spilled material and runoff and contaminated soils in waterways, drains or sewers. Dispose of contaminated containers, soils, etc. in compliance with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements. Empty any remaining contents from packaging prior to disposal and dispose of as unused product. Do not reuse empty containers.

SECTION 14: Transport information

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

14.1. UN number	UN3066		
14.2. UN proper shipping name	PAINT		
14.3. Transport hazard class

15.11. WHMIS Hazard Classification (Canada)

Class D-2B: Material causing other toxic effects (Toxic).
Canadian NPRI: None required.

SECTION 16: Other information

16.1. NFPA

16.2. HMIS®

HEALTH	3
FLAMMABILITY	1
PHYSICAL HAZARD	1
PERSONAL PROTECTION	E

Caution: HMIS ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS ratings are not required on SDS's under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS ratings are to be used with a fully implemented HMIS program. HMIS is a registered mark of the National Paint & Coatings Association (NPCA). HMIS materials may be purchased exclusively from J.J. Keller (800) 327-6868. The customer is responsible for determining the PPE code for this material.

16.3. Text of Risk phrases in Section 3

R36/38 – Irritating to eyes and skin.
R43 – May cause sensitization by skin contact.
R51/53 – Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

16.4. Text of Hazard statements in Section 3

H302 – Harmful if swallowed.
H314 – Causes skin severe skin burns and eye damage.
H315 – Causes skin irritation.
H317 – May cause an allergic skin reaction.
H318 – Causes serious eye damage.
H319 – Causes serious eye irritation.
H335 – May cause respiratory irritation.
H373 – May cause damage to organs through prolonged or repeated exposure.
H411 – Toxic to aquatic life with long-lasting effects.

SAFETY DATA SHEET

According to 29 CFR 1910.1200(g)

16.5. Notice to Reader

The information provided herein was believed by Denso North America ("Denso") to be accurate at the time of preparation and prepared from sources believed to be reliable, but it is the responsibility of the user to investigate and understand other pertinent sources of information, to comply with all laws and procedures applicable to the safe handling and use of the product and to determine the suitability of the product for its intended use. All products supplied by Denso are subject to Denso's terms and conditions of sale. DENSO MAKES NO WARRANTY, EXPRESS OR IMPLIED, CONCERNING THE PRODUCT OR THE MECHANABILITY OR FITNESS THEREOF FOR ANY PURPOSE OR CONCERNING THE ACCURACY OF ANY INFORMATION PROVIDED BY DENSO, except that the product shall conform to Denso's specifications. Nothing contained herein constitutes an offer for the sale of any product.
