CREATING PEACE OF MIND

FOUR THINGS TO KNOW

- 1. Record personal information that is required by Vital Statistics.** Vital Records will need your full name, gender, race, date and place of birth, marital status, social security number, address, occupation, education level, spouse's name, parents' names and your next of kin, informant, or executor.
- 2. Plan for the service cost.** Start a saving account, buy insurance or pre-plan the service expense. The goal is to lock in prices
- 3. Make specific selections for your remains.** Choose a casket or cremation container, an urn, a burial or urn vault, and a monument or memorial marker.
- 4. Make meaningful service choices to celebrate your loved one.** Decide on what type of service: funeral or memorial service; cremation, burial, entombment or transfer to another city? What kind of music, dance or poem selections? Will there be flowers or plants? How about a dove or horse and carriage tribute?
