

The Power Of Planning

We know that planning for the unthinkable is never easy, especially when you don't know where to begin.

Please fill this out and send it back to our office with the names of the people you care about most. Not only will we let them know about the planning you initiated, we will also provide them with a Welcome Packet to educate them on their planning options at absolutely no cost.

About us

Welcome and thank you for choosing Metropolitan Mortuary. Please call us anytime at **951-683-5400** with any questions you may have, we are available 24/7.

Metropolitan Mortuary Services is a family owned and operated funeral service provider serving the state of California. At Metropolitan, your loved one is always in good hands. We provide full service funeral and cremation arrangements. As your hometown funeral home, we are honored to serve you.

We have relationships with well established independent funeral firms with a long standing history of proven service and experience. The reputation of the firms within that network is unparalleled. Because we are able to service the entire State of California, we are able to pass on tremendous value to you, our cherished client.

Our commitment to every family in California is to provide the most affordable services at the greatest value. It is important to us that you have the ability to pre-plan the service of your choosing, with no hassle or pressure and have that meeting conducted from the comfort of your home.

The Metropolitan Focus

Our success has always been derived from two focus points:

1. We take our families needs seriously and are with them every step of the way during their time of need.
2. We offer memorial services with six out of our seven packages. We do this because we know the importance of closure for loved ones.

By holding our services outside of funeral homes, we are able to save our families thousands of dollars in unnecessary costs. When the time comes to service your funeral, we will be standing by to facilitate it in any way you choose.

85% of Americans agree that pre-planning their funeral services is very important.

97% of Americans fail to pre-plan because they find a visit to a funeral home uncomfortable or don't know who to call.

Today over 55% of Americans choose cremation services over burial. In 2030 that number is projected to rise to 75%.

We have found the average price mark-up, for products and services from our competitors is an average of 100%.

Tremendous savings are available through purchasing the same services in advance through us.

The majority of American spouses are unsure about their loved ones funeral preferences.

A 20 minute conversation with a Family Care Specialist can reveal the necessary answer.

Millions of dollars in death benefits go unclaimed every year.

Simply telling a loved one about your end of life planning can prevent this tragic event.
