Hosting on your cloud environment and accessed through your intranet.

Apart of our iRAP certification, ComplyFOI is 100% secure meeting all ASD compliance. We guarantee the data does not leave your domain
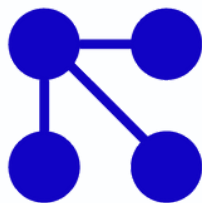

This product is a combination of 95% data engineering and only 5% AI

The product has been developed to have the functionality of operating fully air-gapped.

To maintain security and optimisation of the product, only specific data in your 'data bucket' will be analysed.

Our Value

Within seconds to minutes, we provide the optimization of FOI Discovery. This includes relevant documents, images and videos, anything you require.

Our product automates tasks faster and more accurately which results in increased efficiency and productivity
