

## DIGITAL VIDEO TAPING AND PHOTO MONTAGES

At Professional Sounds, our experienced and talented video production department provides creative digital videotaping for your wedding ceremony and reception and we also produce digital photo montages.

We provide the latest in digital video technology to ensure that you receive the finest video and sound available and Professional Sounds now offers 4K, Blu-ray, or 1080p digital recording. You can choose from a variety of digital video packages and our package discounts can save you hundreds of dollars.

You pick exactly what you want our experienced staff to capture in our video pre-planning checklist. Our videographers are full-time trained professionals with over 41 years of experience in the field. We exclusively use the finest 4K digital video cameras that offer the sharpest digital video available. Expect us to be there unobtrusively for your entire day and night, our video team doesn't leave early.

In the studio, our staff of trained video engineers will spend hours editing your digital video in our state-of-the-art production studios creating a main menu with chapters along with backgrounds, digital effects and video titling.

For your wedding ceremony, we arrive an hour before the start of your wedding and we will capture everything on your checklist including the receiving line and your departure. Your reception coverage may include hall and table decorations, guests arriving, limo arrival, the introduction of the bridal party, best man's toast or other toasts, prayer, wedding song block, cake cutting, bouquet, garter, dollar dance, anniversary dance or anything else that you choose on your pre-planning video checklists.

To receive a free sample from our digital video team along with a price list, just call (419) 385-6400 or (734) 847-4747. Expect the Best from Professional Sounds, serving Northwestern Ohio and Southeastern Michigan with over 41 years of experience and reliability.
