

ABOUT US

Auspower Services is a trusted provider of industrial electrical and earthing solutions, committed to quality, safety, and reliability. With extensive industry experience and a skilled team, we deliver tailored solutions for projects ranging from routine maintenance to complex infrastructure works.

OUR CAPABILITIES.

At Auspower Services, we specialise in delivering full in-house earthing solutions across the following capabilities:

DEEP DRILLING

Reaching depth in all soil conditions with specialist drilling equipment.

- Specialist equipment enables deep drilling up to 30m in all soil conditions
- Installation of electrodes with eco-friendly slurry to improve performance and prevent subsidence

ALL-ACCESS CAPABILITY

Equipment suited to challenging and restricted sites.

- Compact, lightweight, and tracked equipment for challenging sites
- 4WD vehicles allow safe, efficient access with minimal site impact

TURNKEY EARTHING SOLUTIONS

End-to-end delivery from a licensed electrical contractor.

- Licensed electrical contractor providing end-to-end services
- Drilling, installation, terminations, testing, and certification
- Latest tools and test equipment ensure compliance and reliability

ROCK DRILLING

Purpose-built capability for drilling through rock.

- Capability to drill rock up to 30m
- Dust suppression system minimises hazards and environmental impacts

HAND DRILLING & DRIVING

Manual methods for locations rigs cannot reach.

- Manual drilling, augering, and driving where rigs cannot access
- Portable equipment for restricted locations
