“Astrology the Cosmic Science”

The science of Astrology has been studied for centuries and was taught in the universities until the 1600's. Upper- and middle-class people during this time didn't make any major decision without consulting an astrologer. Astrology is always working in our lives, even if we are not consciously aware of the energies. In the past few years, astrology has grown in popularity and has become mainstream once again. Most people are familiar with their “Sun Sign”, which is where the sun was positioned on the day of your birth. All the planets are in zodiac signs as well and have different meanings and affects us differently. You're not just one zodiac sign, but a combination of many zodiac signs. You may be a Virgo sun sign, but your Mars may be in Cancer and your Moon may be in Taurus. The astrology chart is cast and the moment of your birth, giving a blueprint for your life's purpose, strengths, weaknesses, characteristics, and patterns. By understanding your personal chart, it can help guide you in any area of life and help to make sense of your patterns. Checking your personal astrology chart can be just as helpful as checking the weather forecast, but much more personalized.

Join Gena White, as she teaches the basics of this wonderful mystical science in a 12-week course. Students will learn the importance of the 12 zodiac signs, houses, and the planets. Each student will work with their personal chart to help better understand their own patterns, characteristics, and lessons. Also, information will be discussed on how to use astrology for everyday life events. Learning the basic tools of this science, can be life changing, helping to empower anyone.

Your time of birth, place and date of birth is needed for this class. To register call 318-219-8344. The cost is \$30 per class or \$330 pre-paid for all 12 classes (no refunds on prepaid classes as space is limited)

♊ Skywatch for September ♎

Good news is things will start to slow down this month, providing time to rest, reassess, rejuvenate, reconstruct, and re-think our plans for the future. There are five major planets retrograde in the heaven. The two major planets to focus on are Saturn and Jupiter. There are great benefits to this time, one of which is finding a better path for success and happiness. Saturn represents our job, our security, foundation in life and karma. What negative patterns/traits do you want to eliminate? Jupiter retrograde urges us to reexamine how we want to expand and grow our lives. Are your plans going in the right direction? Take the next two months to fine tune what is working and eliminate what is not working. On the 9th Mercury will also turn retrograde until October 2nd. Be sure to watch your words as misunderstanding are quite possible. Best days are 7th, 19th, 25th, and 30th. Days to lay low the 16th, 18th, 22nd and 24th. Be at Peace ~

Featured Stone: Apophyllite

Keywords: past life recall, intuition, memory

This stone is commonly clear or grey in color but are rarer to find in green color. Clear Apophyllite vibrates to the Angelic realm and the green apophyllite connects to the nature spirit and fairy realm. Meditation with this stone is ideal as it can help with access to the Akashic records. Carrying the stone can help with staying in the present moment. Place this stone in any room to help bring more purifying, light energy into a space. Apophyllite works well with scolecite, herderite, and brookite all of these are ascension stones, which facilitates astral travel.
