Mentorship Programs

empowering youth through music, performing arts, and sports

About Us

eMPAS was founded in 2010 to organize community enrichment programs and events that build stronger communities for our youth. Our mission is to **empower students and young adults to become productive citizens**. We build leadership, character, and social-emotional skills while cultivating creativity and talent through our interactive, student-led initiatives. Additionally, we work with the parents and guardians of our students, using workshops, group discussions, and PTA engagement to promote the growth of our students and create healthy and positive home environments. Students leave our program as peer mentors that inspire others to achieve their personal, academic, and professional goals.

What We Stand for

- Engagement
- Mentorship
- Parent Involvement
- Academic and Behavioral Support
- Social-Emotional Learning

Key Offerings

- Online and In-Person Sessions
