• 18 Month • Questionnaire

On the following pages are questions about activities children do. Your child may have already done some of the activities described here, and there may be some your child has not begun doing yet. For each item, please check the box that tells whether your child is doing the activity regularly, sometimes, or not yet.

Important Points to Remember:

Be sure to try each activity with your child before checking a box. Try to make completing this questionnaire a game that is fun for
Try to make completing this questionnaire a game that is fun for
and your child.
☑ Make sure your child is rested, fed, and ready to play.
Please return this questionnaire by

At this age, many toddlers may not be cooperative when asked to do things. You may need to try the following activities with your child more than one time. If possible, try the activities when your child is cooperative. If your child can do the activity but refuses, score "yes" for the item. YES SOMETIMES NOT YET COMMUNICATION Be sure to try each activity with your child. 1. When your child wants something, does she tell you by *pointing* to it? When you ask him to, does your child go into another room to find a familiar toy or object? (You might ask, "Where is your ball?" or say, "Bring me your coat" or "Go get your blanket.") 3. Does your child say eight or more words in addition to "Mama" and "Dada"? 4. Does your child imitate a two-word sentence? For example, when you say a two-word phrase, such as "Mama eat," "Daddy play," "Go home," or "What's this?" does your child say both words back to you? (Check "yes" even if her words are difficult to understand.) 5. Without showing him first, does your child point to the correct picture when you say, "Show me the kitty" or ask, "Where is the dog?" (He needs to identify only one picture correctly.) 6. Does your child say two or three words that represent different ideas together, such as "See dog," "Mommy come home," or "Kitty gone"? (Don't count word combinations that express one idea, such as "Bye-bye," "All gone," "All right," and "What's that?") Please give an example of your child's word combinations: COMMUNICATION TOTAL **GROSS MOTOR** Be sure to try each activity with your child. 1. Does your child bend over or squat to pick up an object from the floor and then stand up again without any support? 2. Does your child move around by walking, rather than by crawling on her hands and knees? Does your child walk well and seldom fall? Does your child climb on an object such as a chair to reach something he wants? 5. Does your child walk down stairs if you hold onto one of her hands? (You can look for this at a store, on a playground, or at home.) 6. When you show him how to kick a large ball, does your child try to kick the ball by moving his leg forward or by walking into it? (If your child already kicks a ball, check "yes" for this item.) **GROSS MOTOR TOTAL**

FIL	NE MOTOR Be sure to try each activity with your child.	YES	SOMETIMES N	OT YET	
1.	Does your child throw a small ball with a forward arm motion? (If he simply drops the ball, check "not yet" for this item.)				
2.	Does your child stack a small block or toy on top of another one? (You could also use spools of thread, small boxes, or toys that are about 1 inch in size.)				
3.	Does your child make a mark on the paper with the <i>tip</i> of a crayon (or pencil or pen) when trying to draw?				
4.	Does your child stack three small blocks or toys on top of each other by herself? (You can also use spools of thread, small boxes, or toys that are about 1 inch in size.)				
5.	Does your child turn the pages of a book by himself? (He may turn more than one page at a time.)				
6.	Does your child get a spoon into her mouth right side up so that the food usually doesn't spill?				
			FINE MOTO	OR TOTA	\L
PR	OBLEM SOLVING Be sure to try each activity with your chi	ld.			
1.	Does your child drop several (six or more) small toys into a container such as a bowl or box? (You may show him how to do it.)				
2.	After you have shown her how, does your child try to get a small toy that is slightly out of reach by using a spoon, stick, or similar tool?				
3.	After a crumb or Cheerio is dropped into a small, clear bottle, does your child purposely turn the bottle over to dump it out? You may show him how to do this. You can use a plastic soda-pop bottle or baby bottle.				
4.	Without first showing her how, does your child scribble back and forth when you give her a crayon (or pencil or pen)?				
5.	After he watches you draw a line from the top of the paper to the bottom with a crayon (or pencil or pen), does your child copy you by drawing a single line on the paper in <i>any direction?</i> (Scribbling back and forth does not count as "yes.")	_

18 Month ASQ Information Summary

Ch	ild's name:	Date of birth:						
Pe	rson filling out the ASQ:		Corrected date of birth:					
Ма	iling address:	Relationship to child:						
					City: State:	ZIP:		
	ephone:				riceleting in rick completion:			
Too	day's date:			****		-		
OV	TERALL: Please transfer the answers in the	e Overall se	ction of	the ques	tionnaire by circling "yes" or "no" and report	ing any con	nments	
1.	Hears well? Comments:	YES	NO	5.	Family history of hearing impairment? Comments:	YES	NO	
2.	Talks like other toddlers? Comments:	YES	NO	6.	Vision concerns? Comments:	YES	NO	
3.	Understand child? Comments:	YES	NO	7.	Recent medical problems? Comments:	YES	NO	
4.	Walks, runs, and climbs like others? Comments:	YES	NO	8.	Other concerns? Comments:	YES	NO	

SCORING THE QUESTIONNAIRE

- 1. Be sure each item has been answered. If an item cannot be answered, refer to the ratio scoring procedure in The ASQ User's Guide.
- 3. Add up the item scores for each area, and record these totals in the space provided for area totals.
- 4. Indicate the child's total score for each area by filling in the appropriate circle on the chart below. For example, if the total score for the Communication area was 50, fill in the circle below 50 in the first row.

Total	0	5	10	15	20	25	30	35	40	45	50	55	60
Communication				0		0	0	0	0	0	0	0	
Gross motor					0	0	0			0	0	0	0
Fine motor	0				0	0				0	0	$\overline{}$	0
Problem solving			0		0	0			0	0	0	0	0
Personal-social		0		0				0	0	0	0	0	0
Total	0	5	10	15	20	25	30	35	40	45	50	55	60

Examine the blackened circles for each area in the chart above.

- 5. If the child's total score falls within the \square area, the child appears to be doing well in this area at this time.
- 6. If the child's total score falls within the area, talk with a professional. The child may need further evaluation.

OPTIONAL: The specific answers to each item on the questionnaire can be recorded below on the summary chart.

		Score Cutoff	Communication	Gross motor	Fine motor	Problem solving	Personal-social
	Communication	23.0	1 0 0 0	1 0 0 0	1 0 0 0	1 0 0 0	1 000
ths	Gross motor	41.5	3 000	3 000	3 0 0 0	3 0 0 0	3 0 0 0
months	Fine motor	39.5	4 0 0 0	4 000	4 000	4 000	4 000
18	Problem solving	33.0	5 0 0	5 0 0	5 0 0 0	5 000	5 000
	Personal-social	37.0	6 OOO	6 OOO	6 OOO	6 O O O	6 OOO
