Dean Kelly - 0432 432 047

ABOUT

Dean Kelly Electrical is a small privately owned SEQ based Electrical Contractor. With a passion for the trade, we are looking to expand in 2025 and build new relationships with a diverse client base to deliver quality work. Our work ethic is second to none and we take great pride in the results we deliver and the contribution we make to the industry.

SERVICES

We provide multi-disciplined operational support, programmed and breakdown maintenance, and planned shutdown management. Installation and upgrade of industrial equipment. We aim for optimal plant and facility productivity whilst integrating with customers systems to minimise operational disruption. We also offer asset life cycle management, hazardous area auditing and verification, specialising in wastewater services.

SAFETY

Our management staff are dedicated to accident prevention, hazard control and removal, injury protection, health preservation and promotion. Our high level of safety is achieved by:

- Planning, developing, implementing and monitoring comprehensive health, safety and welfare programs
- Promoting the understanding of health, safety and welfare as a normal component of all aspects of work
- Providing a healthy and safe workplace
- Encouraging employees to report accidents, unsafe practices or conditions that become apparent promptly and work with others to promote a safe workplace.
- All employees and sub-contractors must undertake a safety system induction. Safety knowledge is kept updated through ongoing company/project inductions, training, toolbox meetings and safe work methods.
