

Greetings from Uganda and the Kaija Family

Pictured here are members of the Kaija family preparing seed packets. Thank you for your Support of Seed for Future Generations!

Please pray for...

- Preparation of this very important garden seed
- The thousands of people in the Kiryandango Refugee Camp seeking a more secure life.
- Raymond and S4SEA staff traveling and distributing seed
- The agricultural training sessions that people may grow more of their own food.
- God's Love and Care in each seed.

“God is our refuge and strength,
an ever-present help in trouble.” Psalm 46:1

Refugee Garden Seed

AN OUTREACH PROJECT OF
Seeds4Souls East Africa

Uganda is host to millions of refugees, and all are seeking education, work, property, healthcare, and other services. Access to enough food is a big problem.

Seeds for Souls East Africa (S4SEA) desires to help as many refugees as possible with a gift of garden seed. Seed grown in Uganda by S4SEA staff (and a good portion via the Widow’s Seed Program) is being prepared into small packets for multiple distributions in the coming months.

The goal of S4SEA and D3S is to share the Good News of the Gospel while providing good seed, that refugees can read and hear of Jesus even while they receive and learn of growing good gardens.
