Computer Defense Force LLC

Security Controls Audits & Readiness

Our Security Controls Audits & Readiness services ensure your organization is prepared for any compliance review or certification requirement. We conduct in-depth assessments aligned to NIST, FISMA, CMMC, and other federal frameworks, providing gap analysis, POA&Ms, audit prep, and readiness support for formal inspections or third-party assessments.

Computer Defense Force delivers detailed findings, executive reports, and remediation recommendations to ensure your posture meets or exceeds mandated standards. We reduce audit anxiety and provide confidence through rigorous preparation.
