Contents

Reviewing Procedure.....	2
Hierarchy of Control	5
Risk Matrix	6
Risk Assessment.....	7
PARK AREA GENERALLY	Error! Bookmark not defined.
Hot weather conditions.	7
The use of bouncy castles and trampolines during events.	7
Use of barbeques	8
Adverse/wet/windy weather	8
Public disorder/security.....	8
Reporting of hazards	8
Fixed furniture e.g. benches and equipment, litter and dog bins	9
Posts / markers / low fences etc.	9
Walls /fences	9
Gates.....	Error! Bookmark not defined.
Inadequate lighting	9
Dog Fouling	9
Dog Bites	10
Drug use	10
CHANGING FACILITIES	Error! Bookmark not defined.
Slips, Trips and Falls	Error! Bookmark not defined.
Fire.....	Error! Bookmark not defined.
Asbestos: May be present in older buildings in pipe lagging, boiler insulation, fire resistance etc	Error! Bookmark not defined.
Manual Handling: Movement of equipment, play equipment etc.	Error! Bookmark not defined.
Hazardous substances	Error! Bookmark not defined.

Electricity	10
Toilet facilities	11
Working at height (e.g. Decoration, changing lightbulbs, Hanging baskets, etc.)	11
Violence and threatening behaviour	12
First aid provision.....	12
Disposal of waste.....	12
CAR PARK AREA:.....	Error! Bookmark not defined.
Car Park Area: General	13
Car Park Area: Slips and trips.....	13
Car Park Area: Car Crime.....	13
Car Park Area: Vehicle movement e.g. car parking, carnival floats, mobile library, fetes, gala attractions (children's rides) etc.....	13
Car Park Area: Hazardous debris (needles, broken glass, sharp objects, animal faeces etc).....	14
Car Park Area: Parking.....	Error! Bookmark not defined.
Car Park Area: Access for Emergency Vehicles.....	15
Car Park Area: Electric car Charging Point.....	Error! Bookmark not defined.
BMX TRACK.....	Error! Bookmark not defined.
BOWLING GREEN	Error! Bookmark not defined.
CHILDREN'S PLAY AREA	Error! Bookmark not defined.
Children's play equipment slides, seesaws, climbing bars, roundabouts etc,	Error! Bookmark not defined.
FOOTBALL PITCHES & GENERAL GRASSED AREAS	Error! Bookmark not defined.
Grass areas – potholes, broken glass and litter.....	15
Hazardous debris (needles, broken glass, sharp objects, animal faeces etc)	15
MULTI USE GAMES AREA (MUGA).....	Error! Bookmark not defined.
Children's play equipment slides, seesaws, climbing bars, roundabouts etc,	Error! Bookmark not defined.
Leaves falling onto surface – slippery when wet.....	Error! Bookmark not defined.
Risk of collision with the fencing during play.....	Error! Bookmark not defined.

Risk of graze (to user) when falling on surface	Error! Bookmark not defined.
Risk of injury from slipping on foreign bodies (cigarette ends, chewing gum, Dog faeces)	16
Injury resulting from broken glass, stones etc.....	16
TENNIS COURT	Error! Bookmark not defined.
Personal injury from trip hazards on court.	Error! Bookmark not defined.
Broken and protruding wire from the perimeter security fence	Error! Bookmark not defined.
Hazardous debris (needles, broken glass, sharp objects, animal faeces etc)	Error! Bookmark not defined.
WALKING TRAILS.....	Error! Bookmark not defined.
Uneven ground/ footpaths	Error! Bookmark not defined.
Over-hanging or falling branches or trees.....	Error! Bookmark not defined.
Litter and rubbish	16
Brambles and nettles	16

Hierarchy of Control

Once the need for control measures has been identified, apply the following principles of prevention in designing these measures:

Hierarchy	Meaning	Practical Example
E	Eliminate	Work from Home
R	Reduce	Split shifts, less people within the workplace at any one time, making adjustment to how tasks are undertaken
I	Isolate	Self-Isolation if symptomatic, making adjustment to how tasks are undertaken
C	Control	Physical barriers to keep workforce apart
P	PPE	Masks, gloves
D	Discipline	Asking workforce to keep 2m apart

Risk Matrix

RISK RATING (R) Likelihood (L) x Severity (S)		HAZARD SEVERITY (S)					RISK EVALUATION	
		Negligible (1) Negligible injury, no resulting absence from work	Slight (2) Minor injury requiring first aid treatment	Moderate (3) Injury probably leading to a lost-time accident	High (4) Involving a single death or serious injury	Very High (5) Worst Case - Multiple deaths and / or serious injuries	<p>Likelihood of Occurrence (L): How often could the hazard occur? Consider the task frequency, duration, method of work, employees involved.</p> <p>Hazard Severity (S): How serious would the hazard effect be if realised? Consider the type of hazard – Biological, Ergonomic, Physical and Chemical.</p> <p>Evaluate the likelihood and severity to produce a Risk Rating (R)</p> <p>Likelihood (L) x Severity (S) = Risk Rating (R)</p> <p>The Risk Assessment Matrix on the left provides guidance in evaluating the Risk Rating.</p> <p>Example: A likelihood of Occurrence of “Possible” and a Hazard Severity of “Moderate” would give a Risk Rating of “Medium”</p> <p>POSSIBLE x MODERATE = MEDIUM</p>	
LIKELIHOOD OF OCCURRENCE (L)	Very Unlikely (1) A freak combination of factors would be required for an incident / accident to result	LOW (1)	LOW (2)	LOW (3)	LOW (4)	MEDIUM (5)		
	Unlikely (2) A rare combination of factors would be required for an incident / accident to result	LOW (2)	LOW (4)	MEDIUM (6)	MEDIUM (8)	MEDIUM (10)		
	Possible (3) Could happen when additional factors are present but otherwise unlikely to occur	LOW (3)	MEDIUM (6)	MEDIUM (9)	MEDIUM (12)	HIGH (15)		
	Likely (4) Not certain to happen but an additional factor may result in an incident / accident	LOW (4)	MEDIUM (8)	MEDIUM (12)	HIGH (16)	HIGH (20)	LOW	<p>LOW – May be acceptable: however, review task to see if risk can be reduced further</p> <p>MEDIUM – Task should only proceed with appropriate consultation with specialist personnel. Where possible, the task should be refined to take account of the hazards involved or the risks should be reduced further prior to task commencement</p> <p>HIGH – Task must not proceed. It should be redefined, or further control measures put in place to reduce risk. The controls should be re-assessed for adequacy prior to task commencement</p>
	Very Likely (5) Almost inevitable that an incident / accident would result	MEDIUM (5)	MEDIUM (10)	HIGH (15)	HIGH (20)	HIGH (25)	MED	
							HIGH	

Risk Assessment

Work activity being assessed:		Waverley Park				Location:		Clydach		RA Ref:		RA/COVID-19			
Assessor:		Ian James (Green Hat)		Signed:		Date prepared:		21 st April 2021		Review date:		Ongoing			
Key to assessment				Risk value:		Low		Medium		High					
				Slightly harmful –Trivial impact / damage quickly repaired		Harmful – Moderate impact / partial loss of operations		Very harmful – Intolerable with very serious consequences							
				People at risk:		<input checked="" type="checkbox"/> Employees		<input checked="" type="checkbox"/> Visitors		<input checked="" type="checkbox"/> General public		<input checked="" type="checkbox"/> Other			
Hazards (Potential to cause harm)		Risk (Consequences)		Initial Risk Value		Precautions / control measures required to reduce the level of risk to the lowest practicable level						Residual Risk Value			
				Likely	Severity	Rating							Likely	Severity	Rating
Slips, Trips and Falls (General)		Council members, Volunteers, Organisers, Visitors, Members of the public at risk of injury if they trip over objects or slip on spillages		3	3	9	<ul style="list-style-type: none">Any objects that can be moved should be removed from the spectating areas.If objects cannot be moved, they should be clearly marked with appropriate signage or a similar approved method to make spectators aware of the hazard posed.Parts of the ground are uneven. Outdoor events at this location means uneven ground is unavoidable.Suitable lighting to be provided at entrance and areas of concern.						2	2	4
Hot weather conditions.		Council members, Volunteers, Visitors, Members of the public and Children at risk of Heat exhaustion, Sunburn.		4	4	16	<ul style="list-style-type: none">Adequate areas of shade available (under trees, marquees, under canopies etc.).Regular breaks for marshals and volunteers running stalls and activities.Adequate first aid facilities in place.Reminders to the public about safe exposure to the sun over the PA system.Adequate supplies of drinking water available.All those involved in the event (volunteers, organisers, marshals etc) are briefed on the need to protect themselves against over exposure to the sun, how to spot the symptoms of heat exhaustion and the facilities in place on the day so that they can react to and manage situations if necessary.						3	3	9
The use of bouncy castles and trampolines during events.		Council members, Volunteers, Visitors, Members of the public, Children at risk of Injury due to misuse of the attraction		3	4	12	<ul style="list-style-type: none">Check the attraction providers have suitable safety arrangements in place i.e. risk assessments, method statements, records of equipment maintenance, proof of EU compliance and public liability insurance. Carry out an assessment of the supervisory levels necessary.Restriction (height/age) on those who can use the attraction.Attraction to be securely anchored, particularly during windy conditions.Brief all relevant people on the importance of rigorous supervision.Clarify all areas of responsibility with outside organisations.Ensure there is signage stating any restriction of use.Ensure adequate marshals are available, allow for breaks.An events folder for appropriate documentation is held and is accessible to anyone who requires it;Websites e.g. ROSPA (trampolines), British Gymnastics and PIPA / HSE (bouncy castles or inflatables) are consulted for current guidance;Appropriate public liability insurance is put in place (min £5m indemnity).						2	3	6

Work activity being assessed:		Waverley Park				Location:		Clydach		RA Ref:		RA/COVID-19					
Assessor:		Ian James (Green Hat)		Signed:				Date prepared:		21 st April 2021		Review date:		Ongoing			
Key to assessment				Risk value:		Low Slightly harmful –Trivial impact / damage quickly repaired				Medium Harmful – Moderate impact / partial loss of operations				High Very harmful – Intolerable with very serious consequences			
				People at risk:		<input checked="" type="checkbox"/> Employees				<input checked="" type="checkbox"/> Visitors		<input checked="" type="checkbox"/> General public		<input checked="" type="checkbox"/> Other			
Hazards (Potential to cause harm)		Risk (Consequences)		Initial Risk Value			Precautions / control measures required to reduce the level of risk to the lowest practicable level								Residual Risk Value		
				Likely	Severity	Rating									Likely	Severity	Rating
Use of barbeques		Council members, Volunteers, Visitors, Members of the public, Children Adjacent attractions/ tents/buildings etc catching fire. Burns. Food poisoning		3	3	9	<ul style="list-style-type: none">○ Appropriate fire extinguishers available within easy access.○ Fire safety procedures to be made clear to the barbeque provider.○ The barbeque should not be located close to potential fuel sources i.e. wooden huts, canvas tents, area of long dry grass.○ Check that the barbeque providers are competent (a food hygiene certificate) and have the means of storing cooked and uncooked food hygienically.○ Frozen foods to be thoroughly thawed before cooking.○ Meats kept in cool box/refrigerator until needed.○ Cooked food to be kept separate from raw meat, - separate utensils to be used.○ Food to be cooked thoroughly and evenly.○ Access to toilets and hand washing facilities.								2	3	6
Adverse /wet / windy weather		Council members, Volunteers, Organisers, Visitors, Members of the public at risk of Slips/trips Electrocutation Exceeding fire capacity of buildings		3	3	9	<ul style="list-style-type: none">○ Assess on the day whether activities are safe to go ahead in wet weather i.e. bouncy castle or any attraction requiring electricity from a building via an extension cable.○ Make sure that if the event needs to be continued indoors the safe occupancy of the building is not exceeded.○ Ensure tents/marquees and bouncy castles and inflatable slides etc. are securely anchored. Should winds get too high do not allow their use.○ Review the situation during the course of the event and make any necessary decisions as to the safety of attractions.								2	3	6
Public disorder / security		Council members, Volunteers, Organisers, Visitors, Members of the public at risk of Assault, Damage to property, Distress		3	3	9	<ul style="list-style-type: none">○ 'Lost children' arrangements to be in place.○ Public address system to make announcements.○ Close liaison with local police.○ Highly visible presence of event marshals.○ No alcohol being served during the event.○ Procession routes cleared with local authority and police and arrangements made for any necessary road closures and temporary diversions								2	3	6
Reporting of hazards		Council members, Volunteers, Organisers, Visitors, Members of the public		2	2	4	<ul style="list-style-type: none">○ System in place for the reporting of hazards.○ All participants briefed in the system in place for the reporting of hazards.○ Hazard to be removed if possible; otherwise enclosed (tape/cones etc) until it can be removed.								2	2	4

Work activity being assessed:		Waverley Park				Location:		Clydach		RA Ref:		RA/COVID-19					
Assessor:		Ian James (Green Hat)		Signed:				Date prepared:		21 st April 2021		Review date:		Ongoing			
Key to assessment				Risk value:		Low Slightly harmful –Trivial impact / damage quickly repaired				Medium Harmful – Moderate impact / partial loss of operations				High Very harmful – Intolerable with very serious consequences
