 December Solstice in Nashville, Tennessee, USA

The term solstice comes from the Latin word *solstitium*, meaning 'the Sun stands still'. On this day, the Sun reaches its southern-most position as seen from the Earth. The Sun seems to stand still at the Tropic of Capricorn and then reverses its direction. It's also common to call it the day the Sun turns around.

On **December 26, 1972**; "**Harry S. Truman**" former President of the U S, Past Grand Master of Missouri, & a very active Freemason, died. He had requested a Masonic funeral, but the government, which handled the details, permitted a short Masonic ceremony during the funeral service.
