

RONALD A. HUMMONS

National **TEDx** Presenter &
Trauma Systems Architect

SIGNATURE KEYNOTE

From Trauma to Trigger: Understanding Violence as a Nervous System Response

Violence is often treated primarily as a criminal justice issue. But-repeated patterns of escalation point to something deeper — unaddressed trauma exposure, chronic stress, and nervous system survival responses.

In this powerful, structured keynote, Ronald A. Hummons reframes violence prevention through a trauma-informed public health lens, offering practical insight into how churches and nonprofits can shift from reaction

CONSULTING SERVICES
