

Continuity of Care Shouldn't End at a Referral

Generate New Revenue by Engaging Your Entire Patient Population

Engagement infrastructure helps bring patients back into structured preventive programs – supporting quality metrics, CCM, RTM, and shared savings goals.

Earn an extra **\$280** per patient per year with **no upfront cost**

Mature your data sets and prepare your practice for value-based care while generating new recurring revenue.

 **Built in direct collaboration with CMS**, our platform engages your **entire patient population** and identifies medical necessity across **47 distinct clinical categories**

How does it work?

1
Enroll your Practice

2
We triage your entire patient population

3
We start the attribution process

4
We determine medical necessity based on personal reported measures

5
You get paid per encounter
