Income Generating Multi-Use Property

Cap rate 6.2

Offered By : W Real Estate Commercial

Multifamily Unit

The 2 Story multifamily is currently occupied by two renters. The 1st floor is rented along with the basement for \$1,500/month. The second floor is rented for \$900/month. This unit is rented below market value, and could generate additional income

Commercial Garage 1, 2

The larger of the garages is currently being rented for \$850/month. The smaller garage for \$300/month. Again due to the size of the larger structure and being commercial (grandfathered) it can bring in additional income.

RV Rental

There is an RV space currently on the property and rented for \$450/month

Manufactured Home Rental

There is a manager of the property currently occupying a manufactured home. At this time no rent is being collected from him. This is definitely a missing element of income that could be generating \$1,400/month.

Rustic Cabin Rental

When you enter the property - immediately to your right is a driveway leading to a rustic cabin. The owner of the properties father built the cabin many years ago and he brought it to this location. He is currently renting the cabin for \$600/month.

However he would like to remove it from. The property when he leaves. The site has a cement slab, artisan well, power, and a septic system, so it could definitely be used for another structure, and a much higher potential rent.

Time to 'think out of the box' Rental

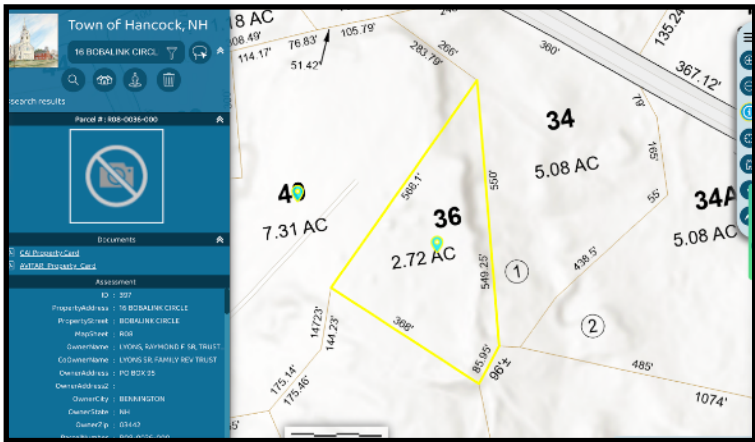

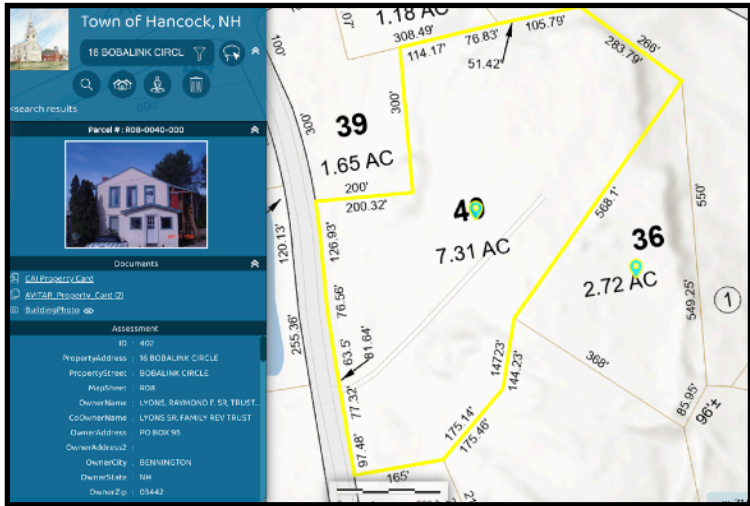

The owner has come into possession a boat, left by a previous renter. This became a vision of something greater. The owner has dug a hole into the ground, installed drainage in the hole, buried the boat so you can access the boat level to the ground. The boat has a mahogany interior that could easily be restored. The thought was to make this a rental BnB unit. With some sweat equity and some renovations this could actually be something quite unique. The site can be improved with landscaping and make it quite attractive.

To summarize- the current property generates \$4,500/month 6.2% cap rate
There is approximately 10 acres of property here in beautiful Hancock, New Hampshire. The property includes, four septic systems on site, and two wells. With some additional renovations, adjustments, and sweat equity, the income generated could increase by 50% or more depending on what your vision is. This property has plenty of additional potential to become whatever it is you want !

Community Reviews for this School

Posted: 11/25/2023 by Senior

The school is located in a nice area. However, there is a lack of advanced placement classes for a student to take. There is also not a large variety of clubs. The teachers are all helpful though.

Posted: 11/4/2023 by Sophomore

My overall experience at ConVal High School has been overall great, I am only a sophomore but I have experienced lots of love, encouragement, and kindness from this school. My favorite part is the staff and sports, all the staff are so helpful and kind I have bonded with many of the staff and the high school and feel safe with them. Conval's sports is also something I love about this school we have many sports teams and the games are always so fun to attend. The only bad parts I've experienced is the student climate aspect, but the whole world is filled with bad people I think that people just need to show more love and kindness. I am a part of student council and I love it and all the people, I love planning out spirit weeks, assemblies, dances, and making the school have more fun and happy.

Posted: 10/10/2023 by Senior

My time at ConVal High School has been mostly positive. The teachers here are really amazing and for the most part, the students are nice. This school does a really great job at building a community and making people feel welcomed through assemblies, school events, and clubs. Some areas where they are lacking a bit are awareness of resources and support systems, also admin listening to the students is another issue occasionally. If there was a bit more promotion of the resources that they have and the support available as well as more cooperation from admin I think that this school could be even better!

Posted: 10/10/2023 by Sophomore

The volleyball and football games have to be the best things. They are always super hype and fun. Most of the school goes to those games even though our football team isn't very good. I think the worst is probably the small bit of smoking and drugs problem, but it's getting better. Most of the time people hang out in the bathrooms and that's annoying. I would like to see the drugs problem change and the hanging out in the bathroom problem.

Posted: 10/5/2023 by Senior

It is great! I love it here. My favorite things have been doing internships. I have enjoyed my time here

About RPR (Realtors Property Resource)

- Realtors Property Resource® is a wholly owned subsidiary of the National Association REALTORS®.
- RPR offers comprehensive data – including a nationwide database of 164 million properties – as well as powerful analytics and dynamic reports exclusively for members of the NAR.
- RPR's focus is giving residential and commercial real estate practitioners, brokers, and MLS and Association staff the tools they need to serve their clients.
- This report has been provided to you by a member of the NAR.

About RPR's Data

RPR generates and compiles real estate and other data from a vast array of sources. The data contained in your report includes some or all of the following:

- **Listing data** from our partner MLSs and CIEs, and related calculations, like estimated value for a property or median sales price for a local market.
- **Public records data** including tax, assessment, and deed information. Foreclosure and distressed data from public records.
- **Market conditions and forecasts** based on listing and public records data.
- **Census and employment data** from the U.S. Census and the U.S. Bureau of Labor Statistics.
- **Demographics and trends data** from Esri. The data in commercial and economic reports includes Tapestry Segmentation, which classifies U.S. residential neighborhoods into unique market segments based on socioeconomic and demographic characteristics.
- **Business data** including consumer expenditures, commercial market potential, retail marketplace, SIC and NAICS business information, and banking potential data from Esri.
- **School data and reviews** from Niche.
- **Specialty data sets** such as walkability scores, traffic counts and flood zones.

Update Frequency

- Listings and public records data are updated on a continuous basis.
- Charts and statistics calculated from listing and public records data are refreshed monthly.
- Other data sets range from daily to annual updates.
