## **Conditions We Treat**

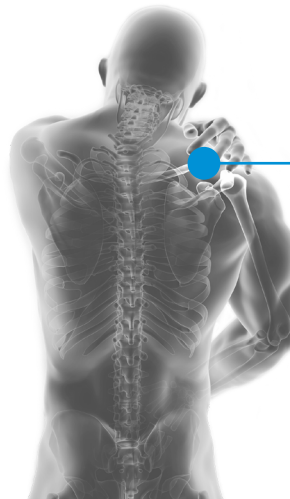

### **ARTHROSCOPIC (KEYHOLE) SURGERY IS THE STRENGTH AND PASSION OF AZBSC ORTHOPEDICS**

Dr Saithna has extensive training and experience in arthroscopic knee and shoulder surgery. The use of minimally invasive techniques avoids the need for large incisions, reduces tissue trauma and blood loss, and helps facilitate rapid recovery and return to work/life/sport with excellent clinical outcomes. Many of your patients may be candidates for arthroscopic surgery. We offer exceptional care and treatment options for a wide range of disorders.

#### **KNEE**

- Knee Pain
- Meniscal Injuries
- Ligament Injuries (ACL, PCL, LCL, MCL, PLC)
- Cartilage Injuries
- Patella Instability & Dislocation
