Join the growing number of companies enriching their IT departments with a global presence!

Would you like to double your IT team without doubling your expenses?

Wisconsin STRATEGIC SOLUTIONS

Imagine what this could do for your bottom line!

Depending upon your needs, we can help you grow your business in a conservative and cost effective way without sacrificing education, skill or ease of communication.   Let us help you explore and understand all of your options.

- QA Engineers
- Data Scientists
- Project Managers
- Call Center Services
- Software Engineers
- System Administrators
- Technology Customer Service
- Sales Development Representatives

Our team will :

- Locate– we will find and recruit desired technical resources
- Hire– we will employ and host your resources at our offices and provide all employment services needed
- Onboard– we will provide training and technology consulting support for your team and their growth
- Administer– we allow you to grow your team flexibly, expanding or shrinking the size of your team as needed without the typical employment issues
- Support your Technology Teams
- Transfer your team– we can transition your team to you, if desired, at the end of your initial term

Our process is simple :

Step 1 : Understanding Your Needs and Propose a Plan

Step 2 : Determine the Location and Recruit Resources

Step 3 : Manage Your Resources

Step 4 : Be your Technology Partner and Growth Advocate

Step 5 : Transition Team Over to You at End Term (if desired)

Our employment model will give you the competitive advantage!

Our team builds IT service organizations from the ground up in one of several global locations, allowing the client to realize the following savings:

- Avoid the cost and work required to establish a legal entity in a foreign country
- Eliminate initial overhead costs for administrative, accounting, and legal expenses to establish a team
- Eliminate stress and long-term commitments of leasing office space and arranging services, such as, utilities and Internet for the space
- Eliminate recruiting time and expenses to find qualified candidates
- Reduce the initial go-to-market time significantly
