

You no longer carry a cell phone with an external antenna (we hope),
so why are you still using physical servers and desktops?

Goodbye Flintstones, hello Jetsons

Right off the bat, you'll notice the Nerdio differences, such as a unified-view management layer. And users get high-performance virtual desktops, with all their apps and data accessible anytime, anywhere, from any device.

Houston, you no longer have a problem

Get seamless migration; personalized consulting and training; complete protection through proactive monitoring; expert technical support; and hosting for line-of-business apps—all from a certified Nerdio partner.

NASA budget and resources not required

Enjoy a serious upgrade to your infrastructure at an equally serious savings of time and money. Have your brand spankin' new IT set up - all in a fraction of the time it used to take. And without the errors that used to be givens, reducing both external and internal labor costs. Rest easy with the transparent per-user per-month pricing of our fully loaded plans, based on your organization's IT needs.
