Game Reporting

If you experience something at your game that is out of the ordinary for a regular match you should be using the Game Reporting tab on the ccsoa.org website to report what happened. If you had an issue with the field, if you had no site coordinator, or something else please report what happened using this format on our website, it goes directly to president@ccsoa.org email and I can then help notify the appropriate contacts.

P2P Evaluations

Official's The Better Officiating Committee has developed a new Peer to Peer Evaluation for us to be using after matches to evaluate the partner that you worked with. Unfortunately Arbiter is not able to get the evaluation function working for us, they are not able to upload the new evaluation at this time. I have been working with Arbiter and the CIAC daily to help get this evaluation in our system for all of the officials to use. We hope to have it uploaded soon and I will provide more details at our meeting on September 25 at SMSA.

Commissioners Corner

John has asked me to once again have everyone update their availability in Arbiter. We are having several instances that we are looking for officials to fill games, we pull them in Arbiter and then say they do not want to do a game. We are low in numbers this year and need everyone to be as accurate and helpful with their time as possible, there are more than enough games to go around please be willing to do a little more for the kids, schools, and game that we all love.

Has anyone seen flags like this before?

Or is he shrinking!
