

# KINGPIN TO EDUCATOR PRESENTS

## KINGPIN INTERDICTION

Drug Smuggling Uncovered by the Men Who Lived It

**KINGPIN TO EDUCATOR PRESENTS** an exceptional law enforcement training opportunity that provides unprecedented access to the inner workings of major drug trafficking organizations. This program delivers critical intelligence directly from former high-level operatives who once orchestrated the very criminal enterprises you're working to dismantle.

### Insider Knowledge

Learn from a former cartel logistics boss and a Montreal Mafia transporter who reveal the sophisticated methods used to move narcotics through commercial transport systems across North America. Their firsthand experience provides tactical insights unavailable from any other source.

### Comprehensive Coverage

Explore organizational structures, subcontracting methods, smuggling techniques, front operations, trap compartments, and emerging trends in narcotics transportation. Gain practical knowledge about red flags in paperwork, logbooks, and DOT filings that signal illicit activity.

### Practical Application

Develop advanced skills for identifying suspicious commercial vehicles, interpreting deception indicators, and converting drivers into cooperators. This intelligence has already facilitated major cartel takedowns and can enhance your interdiction effectiveness.

## Who Should Attend

-  State Police / Highway Patrol
-  Gang & Organized Crime Investigators
-  Narcotics & Interdiction Units
-  Task Force Officers & Intelligence Units
-  Commercial Vehicle Enforcement
-  Prosecutors and Criminal Analysts

This isn't textbook training. This is firsthand intelligence from the streets, highways, stash houses, and smuggling routes that can revolutionize your interdiction capabilities.

## Course Topics

**Cartel Organizational Structure**  
Comprehensive breakdown of Mexican cartels and DTOs operating throughout North America

**Smuggling Methodologies**  
Detailed examination of packaging, loading techniques, trap compartments, and cover loads

**Transport Operations**  
Analysis of front companies, dispatcher manipulation, and route planning strategies

**Currency Movement**  
Intelligence on collection, concealment, and distribution of bulk U.S. currency
