- High impact compression molded fiberglass reinforced door skins will not splinter, dent, warp, rot or rust.
- Doors provide the look of wood with the strength of steel and the superior performance of fiberglass.
- Advanced CFC-free polyurethane core provides enhanced soundproofing and insulation.
- Compression weatherstrip seals the perimeter against air and water infiltration.
- 20" extended lock block allows for a full range of door locks to be installed.
- Full Length composite stiles and rails provide strength and seal out moisture.
- Adjustable thermally broken high dam composite sill.
- Top quality sweep seals out all weather.
