Synopsis: *Darker Ages* is a seven-part limited series set in the Age of Enlightenment circa 1780. WOLFGANG MOZART, in his 20s, is recruited by an unofficial Vatican spy division, the RAPPORTO OCCULTO, to serve as a secret agent. The Rapporto investigates all reports of occult activities that may hinder the Enlightenment. CARDINAL VON STEIN and ELOYSE lead the Rapporto. Eloyse is a transplant from the Guardia Svizzera (Swiss Guard). She is the Rapporto's first line of defense. Rapporto spy teams repeatedly fail to infiltrate highly guarded gatherings of the aristocracy to monitor the IKRAR, an evil cult of alchemists and nobles. After a failed attempt in Rome, a Rapporto agent is killed while he searches for the Solomon Memo, an ancient text warning of the return of Satan.

Enter Wolfgang Mozart, a revered music composer. Cardinal Von Stein recruits Mozart as a Rapporto agent because he is an outsider who got in the room when the Rapporto failed. Along with the Rapporto, he will find and dismantle the sacred Key of Solomon, a collection of ancient instruments said to be able to break open the Gates of Hell. Solomon warned that one day the key would open the Gates and Satan would ride out, casting eternal night on the world. The key was considered a myth until the Rapporto learned that the Ikrar, led by alchemist COUNT ST. GERMAIN, have recruited their own music decoder, ANTONIO SALIERI, Mozart's longtime nemesis.
