## ‘11 Bullets: 3 Thru the Heart’

### Project Summary

The three seasons follow Margot, a Mob Queen, who becomes the Boss of her own crime family. Margot was born on a rural farm to a hardworking immigrant family from France in the 1930s. She goes on the lam at age 15 after an attempted rape by a police officer leaves the cop dead. Margot becomes a wanted fugitive and ends up in Far Rockaway's Playland. She works the games on the boardwalk and meets a handsome barker named Stan who turns out to be a degenerate gambler. The marriage produces two sons before Margot realizes she lost her freedom to an abusive, immoral man.

Johnny, a wise guy and good-looking widow, comes to the rescue. With his class and cash, Johnny treats Margot with affection and respect. Johnny has two young daughters who Margot cares for like her own. One night Margot, Johnny and his daughters are tragically gunned down in a shootout between corrupt FBI agents and the mob. A giant explosion rocks the warehouse right near them. While Johnny and his daughters meet their tragic end, Margot takes 3 bullets to the heart and miraculously survives.

To retaliate for the killing of Johnny and his daughters, Margot enlists the aid of Johnny's trusted partners-in-crime, Nunzio and Louie. Once the blood of Johnny's killers is on Margot's hands, she becomes hardened. She goes on to do jobs for the mob and grows to be respected and feared by men and women alike. Margot's next encounter is with Nick Ferraro, an undercover FBI agent. Margot discovers that Nick is a very devious double agent, and he suddenly disappears.

Margot gets set up on a cocaine bust and is sentenced to three consecutive fifteen-year prison terms in a federal penitentiary. After years in solitary confinement, and untold hours of soul searching, Margot undergoes a spiritual transformation. She gets an opportunity to go before the parole board, finds a loophole in her case and is released on a technicality.

Margot meets Frankie working at the San Gennaro Feast. He helps Margot to fulfill her childhood dream of setting up a flower market in Brooklyn. Margot battles thieves at the feast and must stand up to local hoods trying to shake down her flower business. But Margot cannot make peace until she finishes avenging the people who set up Johnny. The war escalates until Margot learns that her son has an illness with only a few weeks to live. She gets on her hands and knees, crying out to God, "My son's life for mine." Soon she learns that a new set of lungs that will save her son's life are available. Margot learns to forgive. She gives up her revenge. From that moment on, Margot's life is changed and she works for a new Boss: Lord Jesus Christ. She becomes a Chaplain for the NYPD.
