The Toolbox

EHS SOFTWARE FOR THE GOLF AND SPORTS TURF INDUSTRY

ENVIRONMENT, HEALTH & SAFETY

Safety, sorted.

Every record, every department, one place.

The Toolbox is the all-in-one EHS platform built for golf clubs and turf facilities, helping your team meet its safety responsibilities with confidence and less time.

125+ clubs use The Toolbox across Australia and North America

> **"Safety is strategically critical but operationally inconvenient."**

- **Worried about your team.** A single serious incident can change a career, or a life.
- **Complex regulations.** And pressure to prove you're compliant.
- **Strapped for time.** Safety competes with everything else you're responsible for in your role.
- **No one owns it.** Records live in binders, inboxes and memory.

One platform. Every department.

1 Hazards & Risk Register
Staff report hazards by QR code. Risks are scored, owned and tracked.

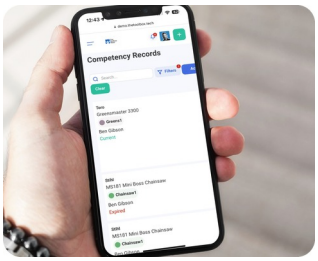

2 Competency Records
Sign off equipment training in the field: checklist, photo and both signatures.

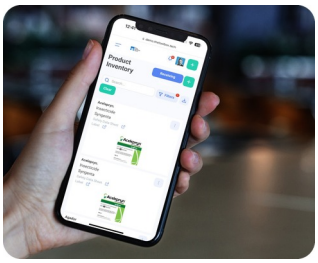

3 Incidents & Inspections
Report, investigate and close out every incident and inspection.

4 Equipment & Chemicals
An equipment register and product inventory with safety data sheets at hand.

5 Dashboard & Documents
A live compliance view for your board, owner or insurer.

6 Team & Qualifications
Every certification on file, with alerts before anything expires.

"The Toolbox system is the best Health & Safety platform I have seen, and I have seen and used a lot of them!"

LEE STRUTT, DIRECTOR OF GOLF COURSE & ESTATE, LOCH LOMOND GC (FORMERLY CABOT CAPE BRETON)

ONSITE EHS AUDIT FOR GOLF CLUBS

The Green Light Audit

An onsite health, safety and environmental audit of your course maintenance and clubhouse operations, built specifically for golf clubs.

Half day or full day onsite | Benchmarked to your province | From $1,995

What it is

A qualified auditor from The Toolbox Team walks your site, talks with your team and checks your practices against internationally recognized EHS standards, benchmarked to your provincial requirements.

Why it matters

From chemicals and equipment on the course to kitchens and bars, clubs carry real exposure and liability. The audit gives you a defensible, third-party record of where you stand.

FEATURES & BENEFITS

WHAT'S INCLUDED	WHAT IT GIVES YOU
Onsite audit by a qualified Toolbox Team auditor	An objective, expert set of eyes, not a self-assessment
Assessment against recognized EHS standards	Confidence you're measured against a standard, not guesswork
Checklist-based review of every operational area	Nothing important gets missed or left to memory
Written report with findings, controls and timeframes	A prioritized action plan your team can start on immediately
Compliance scoring by section and overall	A baseline to report to your board and improve year over year
Photographic documentation of key findings	Clear evidence to support budget requests and staff conversations

HOW IT WORKS

01
Scope the audit
Course maintenance, clubhouse or both, based on your greatest need.

02
We come onsite
A half day on one area or a full day on both, walking the site with key staff.

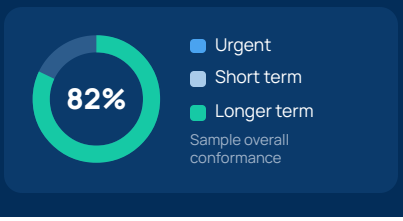

03
You get the report
Findings, priorities and suggested controls, in plain language.

04
You take action
At your own pace, with our team there to support next steps.

BEYOND THE AUDIT

Findings that live on The Toolbox

- Every finding becomes an owned, trackable task, not a report in a drawer
- A live compliance score to share with your board or ownership
- Your audit investment can apply toward onboarding to The Toolbox

STARTING AT
$1,995
half-day audit, scoped to your facility
