

SNOW PLOWING AND SALTING OF ROADWAYS

- Plowing will begin typically once 1” – 2” of snow has fallen
- Roadways are divided into 3 priority levels
 - Priority 1 – Arterial and Collector roadways
Anderson Road, Beith Road, Bolcum Road, Campton Hills Road, Fox Mill Blvd, Harley Road, McDonald Road (specific sections), Old Burlington Road, Old La Fox Road and Pouley Road
 - Priority 2 – Main roadways through subdivisions and school zones
 - Priority 3 – Minor residential roads, side roads, cul-de-sacs, “tees” and any dead end roads.

***For your reference, in Campton Township the following road jurisdictions apply:**

State of Illinois DOT Roadways	Route 64	Route 38	Route 47	630-584-4360
Kane County DOT Roadways	Empire Road Corron Road	Silver Glen Road Dittman Road	La Fox Road Burlington Road	630-584-1170
Campton Township Highway District Roadways	All other roads in Campton and Plato Townships not listed above.			630-365--9300

PARKED VEHICLES

- The Village of Campton Hills ordinance on all Village roadways prohibits vehicle parking during any snow/ice event until after removal is completed.
- The Kane County Ordinance on unincorporated roadways within Campton Township prohibits vehicles parking during a snowfall of 2” or more.
- If Campton Township Highway District plow cannot remove snow from a roadway due to an illegally parked vehicle, that vehicle will be towed by either the Village of Campton Hills Police Department or the Kane County Sheriff’s Department.

All towing expenses will be paid by the vehicle’s owner.

MAILBOX DAMAGE

- ❖ See MAILBOX POLICY for Postal Service requirement guidelines
- 1. If your mailbox received damage due to snow plowing, adhered to USPS guidelines and was in good working condition (no rotted or rusted posts) please contact the Highway District 630-365-9300
- 2. Extravagant mailboxes made of stone, brick or any other heavy materials are not within the USPS guidelines and will not be repaired or reconstructed by the Highway District.
- 3. If the Highway District determines that a plow truck was responsible, we will replace it with a temporary post and mailbox.
- 4. A permanent replacement with 4" x 4" wooden post and standard mailbox will be installed in the spring or when the weather permits that meets the USPS guidelines.

Note: There is not a State Statute requirement for the Highway District to be responsible for the repair or replacement of damaged mailboxes due to plowing. Four of Kane County's sixteen Township Highway Districts have elected to repair damaged mailboxes. The Campton Township Highway District has elected to repair damaged mailboxes during snow plowing if the USPS guidelines were met.
