

Bridging the Gap Pediatrics

Therapeutic Group Session

Join Us
May 21st
10 am

This session is intended for little ones who no longer have the opportunity to participate in the Early Intervention program. During this event each parent and child will have the opportunity to work together with a specialist through several guided activities, which may include an obstacle course and activity. The group session is about an hour long. This gives parents an opportunity to work one-on-one with their child.
