

LECTRIC LICKS

ABOUT LECTRIC LICKS

Letric Licks is a live electronic music group from Cape Town, South Africa, comprising Christoph Koch and Gerhardus Coetzee. This soul stirring duo crosses the bridge between Deep house and Melodic Techno. Formed in 2018, their unique sound is derived from live guitar, keys, synths and vocals, which they define as colour that the eyes have never seen. Be sure to catch them live to experience their remarkable melodic journey.

LECTRIC LICKS

TESTIMONIALS

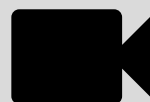

Lectric Licks totally rocked the main stage at Bazique Festival this year ... a great electronic / live fusion act that is going from strength to strength.

Nick Ladd
Festival Director
Bazique Festival

I met Dj Snake at Afrikaburn 2016 and he performed on The SPIRIT Train with a great dj set. Since then he has diligently been honing his skills as a producer and made the great connection with Gerry to accompany his electronic sound with the live guitar element. This has proved a very attractive and clever move, in a world run by computers we all love to be reminded of the human touch within music. The guys have played at my Make-Believe NYE event and more recently at Afrikaburn 2019 (The SPIRIT Train), and their sound is a perfect balance of deep & uplifting melodies that can please almost any ear of any age.

Chris & Gerry are both great individuals with musical talent.
I see great things for their future ...
Mike Kennedy

LECTRIC LICKS

TESTIMONIALS

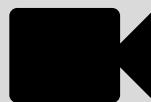

The first time I experienced Lectric Licks perform live was this year at AfrikaBurn 2019. Their dynamic electronic live act was well sought after, with them playing at multiple different theme camps and mutant vehicles across the Tankwa desert including the well-known mutant vehicle, The Spirit Train. Lectric Licks' set on The Spirit Train was one of AfrikaBurn's most memorable sets which stole the hearts of the Burn community, myself included!

After getting to know Chris and Gerry very well over those next few months and attending a few more of their gigs in and around Cape Town CBD, I was consistently impressed by their undeniable talent, professionalism, drive and undying passion for their music and connecting to their audience. I booked Lectric Licks for Equilibrium Festival (14th September 2019) and their sunset performance at Nelson Wine Estate is still being raved about!

They have since been booked for an array of indoor and outdoor festival events for Cape Town's upcoming summer season. This live act is a melodic force to be reckoned with and I highly recommend booking them for an event of any nature or occasion!

Julia McCann
Managing Director
Equilibrium Festival
