

To whom it may concern

Re:Ken Baxley (kenny B.)

Ken has worked in several of my night clubs. I have found him to be able to fit into any situation. He is an excellent vocalist and musician. There are many musicians in the business but few entertainers. Kenny goes out of his way to find new ways to entertain the many guests we have on this property. Further more and what I consider very important,when you book Kenny he will be there on time and give you a fair days work. This means he is very reliable. It's nice to hire a trouble free entertainer. It makes my job that much easier. I not only recomend him,but plan on using him myself again and again in the future.
