

A GAME CHANGER IN AQUATIC ENTERTAINMENT

FITNESS COMPETITION RECREATION SPORT

Landmark Aquatic (formerly Progressive Commercial Aquatics and Westport Pools) was pivotal in the relationship that brought the Pirates Bay project to fruition. Having been involved with the initial build, expansion & ongoing service with the City of Baytown, Landmark was able to leverage this relationship & opportunity as the 1st NinjaCross System installed in North America.

“The addition of the NinjaCross system has surpassed its purpose as one of the park’s most frequented attractions. Everyone loved it!”

~Jenna Stevenson
Aquatics Superintendent,
Baytown Parks & Rec

PIRATES BAY WATERPARK
BAYTOWN, TX

Coordination with Landmark Aquatic, was critical in the timing & development we look for in our contractor partnerships at the Blue Surf Bay Waterpark & Aquatic Center at the Carson Ross Community Rec Complex. Since installation & owner turnover, Landmark has been a key partner in co-hosting facility tours in Blue Springs, MO with potential clients, design firms & contractors to fully showcase the entire facility, including the mechanical systems & ongoing service at this innovative new facility.

“Everyone said we wanted a new aquatics center, but never thought it would be like this. This is beyond what we thought. We are not trying to be better than anyone, just trying to be the best we can be while serving our community. Too many people settle for the ordinary. Try being extraordinary and see how the community responds.”

~Dennis Dovel
Director of Parks and Recreation, City of Blue Springs MO
