NINJA CROSS™

**TRANSFORM
YOUR POOL**
WITH THE PUSH OF A BUTTON

Welcome to the new ARENA IN AQUATICS.

**NinjaCross™ — the retractable obstacle course.
Indoor or Outdoor - Retracts in 60 Seconds On-Demand**

Developed for facilities battling empty schedules and still waters, the system deploys in under 60 seconds to supplement profitable programming – from high-intensity, low-impact exercise to fan-driven competitive events. Generate new member loyalty, sales and new revenue streams with paid memberships, entrance fees and center-of-attention events.

- Differentiate your facility from the competition
- Zero interference with existing programs
- Member Retention - Member Acquisition - New Revenue Streams

Drive sponsorship dollars through corporate naming rights opportunities & partnerships.

COMBAT DOWNTIME

- Create a destination
- Children, teens & active adults
- High throughput up to 10 participants at once
- Keep members coming back
- Increase length of stay
- Retrofit to indoor & outdoor aquatic facilities
- Student athletics, swim teams, training & elevated lifeguard conditioning
- Partner with local school districts & gyms
- Monthly paid events & private rentals - lease your space

Tour one of our installations. Contact us today!

“
NINJACROSS™ is the next big thing in aquatics! With the innovative design, competition-style system, and individuality of the system...aquatics professionals can use this for several different types of programming; challenge courses, fitness classes, free time for kids and adults alike, and so much more! This system, in my honest opinion, is a game changer in the world of aquatics.
— Abi Schaefer
Duke University Recreation & Physical Education

“
The NinjaCross system can provide a tremendous compliment to the overall programming for an aquatic facility that otherwise may be limited to a few specific user groups. The unique combination of recreation, fitness, and extreme sports are all combined in the system, making it a unique enhancement to pools that may otherwise be specifically programmed for a narrow demographic.

— Scott Hester
