

PI + Grant Outcome Analysis

BASED ON A 10-YEAR RESEARCH PROJECT THE EDITH BUSH FOUNDATION, DETERMINED A BUDGET INCREASE BY 377%

STANDARD GRANT COST

Standard cost of a basic grant.

STANDARD OUTCOMES

Standard outcomes of a basic grant with no added financial or other influence..

GRANT PLUS PI COST

Standard Grant cost PLUS 4 to 8% of the grant cost to pay for a philanthropic intermediary's oversight and support.

INCREASED OUTCOMES*

We are fortunate, however, to have multiple foundations implementing innovative practices with the goal of strengthening the sector. For example, the Edith Bush Foundation has been providing capacity building funds to its grant recipients for ten years, and recently (2010) surveyed those grantees to discover if any increase in revenue had resulted. The results were conclusive and startling! **Those grant recipients who received additional funding for capacity building, had, across the board, increased their revenues by 377%! A conclusive amount to support capacity building!**

Outcomes Up 377%*
