Is my child too much??

If we are honest, this question is rarely just about the moment in front of us. It reaches further.

Am I raising a child who is going to be okay?

Will life be harder because of the way they are wired?

This week, we explore a different lens. One that moves away from the idea that something needs to be fixed, and toward the possibility that your child may be a high-capacity child. A child who thinks deeply, feels deeply, and engages with the world in a way that is full and intense.

While the theme is universal, the experience is uniquely tailored to each class's developmental stage. Through a rich daily blend of **art, yoga, and curated literature**, students dive into hands-on **experiments**, sensory **exploration**, and creative problem-solving designed to meet them exactly where they are.
