

Old Town's Heron 9 Kayak offers an ideal blend of comfort, stability, and user-friendly design, making it a favorite for new and recreational paddlers. It's lightweight enough to carry solo, responsive enough to track straight on flat water, and packed with thoughtful features that elevate every outing—whether you're cruising a calm lake or sneaking in some fishing. Max capacity @ 225 Lbs.

Some days, we just need to grab our kayak and hit the water, and the **Old Town Malibu 9.5** Kayak makes that effortless. Compact, lightweight, and ultra-stable, this sit-on-top kayak is built for fun—whether we're cruising along a calm river, catching waves, or exploring hidden coves. Its 9.5-foot hull is designed for easy maneuverability, making it a great choice for both beginners and experienced paddlers. Max capacity @210 Lbs.

The **Twin Heron** is a truly unique tandem kayak that also performs well when paddled solo. The Auto Trim Hull is designed to prevent the bow from popping up when seated solo in the stern seat. You can also completely remove the front seat making it perfect for your dog to ride along or easy access to your gear. The Twin Heron comes standard with four flush-mount rod holders, making tandem fishing trips even easier! The Twin Heron is a great option for the outdoors family looking for a versatile tandem kayak. Max capacity @ 425 Lbs.

The **Twister** is a low-maintenance sit-on-top kayak offering an extremely stable ride. This fun yet affordable kayak makes it easy to enjoy the day on the water. An outfitter favorite, the Twister fits most body types comfortably. Designed to take on everything from rivers to waves to ponds or lakes, the Twister is perfect for beginner to intermediate paddlers. With a comfortable molded-in seat area and ample leg room...all you need is a paddle to make your trip complete is a low-maintenance sit-on-top kayak offering an extremely stable ride. Discover the perfect balance of comfort, stability, and performance with the **Old Town Loon 106** Recreational Kayak. Engineered for paddlers who value both relaxation and adventure, this 10 ft 6 in sit-inside kayak is ideal for lakes, slow rivers, and calm coastal waters. Its sleek hull and sharp keel line deliver smooth gliding, effortless tracking, and reliable stability—making every trip feel easy and enjoyable. The ACS2 Active Comfort System seat sets a new standard for on-water comfort. With plush padding, under-leg support, and flow-through ventilation, it's designed for all-day paddling without fatigue. The intuitive seat adjustments and Support Track foot brace system provide a secure, ergonomic fit—whether you're wearing shoes or paddling barefoot. Max capacity @ 275 Lbs.

Get ready to ignite the water with the **Classic SOLfiesta**, the grandest board in SOL's stand up paddle board lineup ... and a six-person party barge to boot. Yes, it's a magnet for multiple paddlers and unforgettable multi-day expeditions. So whether you're embarking on a wild cruise with a crew of friends, engaging in team-building activities, or creating cherished family memories, the SOLfiesta guarantees an epic hit with its intelligently positioned handles, plush foam cushioning, and reinforced soft gear attachments. Max capacity 1200Lbs.

The **SUP ATX "Viking"** is the next level in durability and stability, all-around eps/epoxy construction paddle board with an additional layer of ABS for durability for all types of stand up paddling including lakes (flat water), ocean surfing and even boat wake surfing for any size paddler weighing up to 400 lbs

Trikes and Bikes

The **EZ-3 USX** HD Delta Trike provides all the stability and control available in recumbent trike technology while offering a little more thrill. And when we say HD we mean heavy duty, with 110 psi tires, 48 spoke wheels with double-wall rims, this trike will handle 400 pounds. Setting this trike apart from others is its low center of gravity attained by three 20-inch wheels that are cambered in the rear to increase cornering stability. Also, the EZ-3 USX HD offers powerful disc brakes, mid-frame suspension and under-the-seat steering.

The **EZ Tri Classic** is very comfortable with a large cushy seat. It is a good trike for someone who needs exercise and local transportation but doesn't think they have the strength or coordination to ride a two-wheeled traditional bike or recumbent. It is slow and heavy but stable at lower speeds. The EZ Tri Classic seat is high enough to make getting on and off easy. We have had customers with medical conditions such as Parkinson's and severe arthritis that thought they wouldn't be able to ride who found the EZ Tri Classic a joy. One rider's condition forced him to walk with a walker but he was able to enjoy the EZ Tri Classic on his first ride. Max Capacity @ 225 Lbs.

The **Avenue** tadpole type trike has a 14" High Seat with adjustable recline. Easy reach handlebars. Adjustable seat. Recline Adjust for riders from ~5'2" to ~6'6 with a Max capacity @ 300 Lbs.

The **MonoMano Adaptive Recumbent Trike** is a leg-propelled adaptive recumbent tricycle intended for stroke survivors, upper extremity amputees, and others who have the use of only one hand and/or unilateral weakness. The handlebar incorporates the adapted functions of steering, braking, and gear shifting for the full cycling experience operated with just one hand. The sliding and tilting recumbent seat, 3 wheels, and adjustable handlebar position enable comfortable and stable long rides with minimal fatigue. This trike provides exercise, independence, transportation, and comfort-- all rolled into one amazing ride. This all inclusive package includes: 21 speed recumbent trike, MonoMano handlebar, and adaptive pedals. Max capacity @ 225 Lbs.

The **TRIGO** offers outstanding stability and agility with its delta design. Its high off-ground clearance and adjustable seat allow the riders to steer comfortably in an upright position that eases back pain and improves visibility. Max capacity @ 275Lbs.

The **TerraTrike Rover** is a recumbent trike known for being a reliable and user-friendly entry-level model, available in various configurations including different gear systems 27-speed. It features disc brakes and a comfortable, easily adjustable seat. The Rover is well-suited for leisure rides, around-town use, and errands, though it's not designed for high-speed performance or aggressive off-road use. Max capacity @ 375Lbs.

Lil' Excelerator Max capacity @ 200 Lbs.

Experience double the fun with the Schwinn Twinn Classic **Tandem Beach Cruiser Bike**. This sleek aluminum frame bicycle features a low step design for easy mounting and 21-speed options for versatile riding. With its urban tires and alloy caliper brakes, this double seater bike is perfect for cruising in style.
