

# THE 2017 JIHAD AGAINST THE BUDDHISTS, AND THE MINORITY HINDUS, MRO, THET, KAMPTI AND ANY OTHERS, BY THE BENGALI MUSLIMS

by Rick Heizman, Sept 3, 2017, San Francisco

This Jihad is actually an ever-ongoing Jihad that started during Mohammad's life, and for centuries marched and conquered every land in every direction. Now, this new spike of savage, intolerance is not really new – but it is at a severely dangerous point, and must be dealt with in such a way that it does not continue.

What is happening in Rakhine State, Myanmar, historically known as the Buddhist Kingdom of Arakan is also ongoing and happening in Bangladesh, where horrible massacres, village burnings, rapes, and violence are pushing the remaining population (less than 1%) of Buddhists, and any other infidels, out. As well, in southern Thailand the Buddhists are being terrorized, killed, and sent fleeing. In formerly 'tolerant' Indonesia and Malaysia, Buddhists are in great danger, Buddhist temples are being destroyed, often with government declaring them 'illegal'.

All of this mayhem is by people who have a 'religion' called Islam, which proclaims that 'ALLAH' (God) wants Muslims to kill and conquer and destroy every culture, every other religion, and every person that does not submit to Islam. And, their 'holy' book says that hundreds and hundreds of times. It is a religion of intolerance, supremacy, and violence, in which its followers have NO SHAME, NO GUILT, and NO COMPASSION towards infidels.

Let it be said, there are many Muslims in the world whom are peaceful and kind people. They are largely born into the faith, and thankfully do NOT follow the Quran, and are NOT interested in all of this Jihad nonsense. BUT, there are millions upon millions of Muslims completely brain-washed by a bloody primitive ideology, that threatens the world all over.

Most of the world has been misled and fooled by a relentless barrage of demonizing, manipulated and outright false media, which has suffocated the voices, fears, and concerns of the Rakhine Buddhist people. Think about this:

- Why do all people of different faiths and ethnicities get along fine with other, except Bengali Muslims – who can not live harmoniously with any others?
- Why do we not hear anything bad about Bengali Hindus (there are about 100 million in India, Bangladesh, and abroad)?

HERE ARE IMAGES OF THE NEW WAVE OF JIHAD MADNESS WHICH LAUNCHED ON AUGUST 25, 2017, IN RAKHINE STATE. SOME IMAGES ARE TAKEN FROM LOW QUALITY VIDEOS THAT THE MUSLIMS TAKE AND POST ON THEIR VERY MANY JIHAD WEBSITES AND FACEBOOK PAGES.

Notice how the boys are taught and encouraged to kill for 'Allah'.

These two boys on video are expressing, happily, that they are going to have their first chance to kill Buddhists.

Translated, 'We are going to cut off the heads of the Buddhists!'

This is why there is such revulsion concerning Islamic Madrassa Schools, where this

generation of kids learn absolute hate, killing techniques, and Islamic Supremacy.

Ata Ullah – one of the leaders of the Arakan Rohingya Salvation Army (ARSA), which recently changed its name from the Harakah al-Yaqin (HaY) (translated as: the Faith Movement, or the Movement of Certainty), perhaps a savvy move to have an English name, and therefore minimize the Arab and Islamist connection, and to use the term ‘Arakan’ to strengthen the propaganda that the Bengali ‘Rohingya’ Muslims are indigenous to the land of Arakan – which they are clearly not.

Why should the indigenous Buddhists of Arakan, living in their own homeland, with their deeply rooted Buddhist Culture, have to live with these zombie-like killers, whose homeland this is not, who want to steal this land from the Buddhists, and make it a 100% Muslim only land ruled by Sharia Law?

**I Repeat, You will never die if Allah doesn't want you to die. None has the power to take your life except Allah. So, please, join us. I am asking the Islamic scholar society who are reluctant to the fatwa of Jihad. My brothers who are expert in hadith, please join us. If you told about jihadi fatwa, jihad would be established in Arakan. I urge you to join us. And please start giving the fatwa of jihad. Please don't hide yourselves, please, join us. Please join us to establish jihad in the land of Arakan.**

Waiting to make evening attacks of Buddhist, Hindu, or Tribal Myo and Diengnet villages. All who cannot escape will die violently, even women and children will be hacked to death.

Everybody loves Facebook – even these killers

The Rakhine Buddhists are supposed to live with these kind of people?

The Rakhine Buddhists are supposed to citizenship to these kind of people?

NO country on earth would give citizenship to such people. They should be put back in Bangladesh which IS their ancestral homeland.

**LET THE BUDDHISTS LIVE IN PEACE!**

Weapons, land mines.

Many roads in the conflict zones have landmines, making the people cut off for fear of using the roads.

These refugees in Bangladesh (above) fleeing recently for their lives, as the Rakhine Buddhists, Hindus, Christians, and tribal people in Rakhine State (below) have to do. Many are trapped by destroyed bridges, and are hiding in jungles in great fear, and with little food.

Throughout the Muslims world the Muslim Media distorts, fabricates, manipulates, and demonizes Buddhists (and others) to absurd degrees - and almost all Muslims will believe nearly anything. Abu Dher Azzam is a senior cleric and spokesman from the Islamic Movement of Uzbekistan who has a very large following. His talk about the history and the violence in Arakan is some of the craziest, most hateful screed on earth.

Example: he says that Ma Thida Htway, the raped and murdered Buddhist girl in Arakan that triggered the 2012 wave of violence had actually converted to Islam and, in fact, was raped by Buddhist monks! Then the violence started (the Muslims started it) and as he said, *“When just in two weeks they killed more than 20,000 Muslims and injured more than 58,000, while 1500 families were displaced from their homes and around 500 cities and villages were burned. [Burma is] a pagan Buddhist enemy which is the Kaffir (strongly derogative word harsher then infidel), aggressive, oppressive, licentious state of Burma. We say to them and to all Muslims that the only solution of this tragedy is Jihad”*.

He continues, *“[the word] Burma originally comes from the word “Bar’Ma” like how local Burmese pronounce it, which means (in Arabic) land and water, and Arakan or “Araakaan” is (Arabic) plural for “Rukun” – corner”*.

His history is preposterous, but it serves the process of brainwashing the entire Muslim world to hate and kill all Buddhists. He states, *“The first Islamic kingdom in Arakan was established by Suleiman Shah in 1382 and Muslims continued to rule Arakan for four centuries before the Buddhist Burmese occupied the kingdom in 1867”*.

HOW CAN ANYONE LIVE WIT THIS SORT OF CRAP?

## A very popular writer in the Muslim world

In his book *Islam and Buddhism*, Harun Yahya, a Muslim–fundamentalist and an Islamic–creationist and a convicted Turkish–criminal, concludes that Buddhists’ accomplishments are purposeless and that they are “destined for destruction” because their understanding of God and religion is incompatible with Islam. Harun Yahya accuses Buddhists of “associating” false gods with the real one.

In the introduction page of his derogatory book he had described Buddhism as superstitious, mysterious, strange practices, deviant doctrines, contrary to logic and intelligence, a dark form, resulting great loss to devotees, a belief that does not bring contentment, causing deep pessimism and gloominess, inflicting serious psychological damage, inculcating laziness and indolence, and does not urge its devotees to be better or develop themselves, to beautify their environment, or to advance culturally.

That is a long list of demeaning words from Harun Yahya for Buddhism. And he is deeply concerned that the western societies are getting more and more interested in Buddhism as he cannot accept the truth that, generally, those who adopt Buddhism do so because they believe in the logic of its philosophy.

He and many other Muslims have been threatened by the solid facts that Buddha’s teachings are logical, no need to believe in an almighty creator God, no original sin, salvation by one’s own efforts, compassionate to all beings, non–violent, non–superstitious, and absolutely compatible with science. So they hate Buddhism much more than any other religions.

**Just as all other non–Muslim groups, Buddhists are considered infidels in Islam. But contrary to Judaism and Christianity, Buddhists does not have a god and nor do they share parts of the old testament with Muslims. While Jews and Christians are allowed to live in Muslim societies, as long as they pay the jisyā (Islamic term for protection money), Buddhists only have two choices according to Islam: Converting to Islam or being killed.**

This is why Buddhists are highest on Islam’s death list.

VICTIMS – THEY DO THIS FOR THE GLORY OF 'ALLAH'?

Surrounded by cheering zombies a Buddhist man is beat to death, and another Buddhist is beheaded. ENOUGH IS ENOUGH, WE WILL NOT TOLERATE THIS EVIL!
