

Details on Westhills Park clean up. The purpose of this community event (open to all) is to come together as a team to remove invasive species and "firesmart" the park. Please meet and check in by the parking lot at 0945 and the activity will be from 10AM until 1 PM. Dress for the weather (layers) and make sure you have good sturdy shoes with good grip as we may be working on slopes. If you have your own heavy work gloves and eye protection please bring them along. For parking, please do not use the very small parking lot, instead we have arranged parking at the Lighthouse Christian Academy (1289 Parkdale Drive). There is a walking path from Parkdale Drive through the south side of Westhills Park...about a 6 minute walk. Water and snacks will be available. All members of the community are welcome, and please RSVP to lras2023secretary@gmail.com so we can get an idea of how many participants to expect.
