

Details on Westhills Park clean up. The purpose of this community event (open to all) is to foster teamwork and friendships as we work together to remove invasive species and "firesmart" the park. Please meet and check in about 100 metres south of the playground ("work area" on the map) at 945AM and the activity will be from 10AM until 1 PM. Dress appropriately for the weather (layers) ...we may be in shade or full sun...and make sure you have good sturdy shoes with good grip as we may be working on slopes. If you have your own heavy work gloves and eye protection please bring them along. Please do not park in the very small parking lot, instead use the parking lot at the Lighthouse Christian Academy (1289 Parkdale Drive). There is a walking path from Parkdale Drive through the south side of Westhills Park...about a 6 minute walk. You may also park at Belmont School and it's about a 10 min walk. Water and snacks will be available. All members of the community are welcome, and please RSVP to Iras2023secretary@gmail.com so we can get an idea of how many participants to expect.
