

LAKEVIEW MEDICAL ASSOCIATES

MOUNT OLIVE, NJ

****NOW OFFERING TELEMEDICINE****

Lakeview Medical is monitoring the current and potential impact of the coronavirus (COVID-19) in our community. We are taking steps to provide continuity of our services and ensure the safety of our employees and patients as we navigate through this outbreak. We are taking this situation very seriously.

Lakeview Medical will be operating with respect to guidance from the Centers for Disease Control and Prevention (CDC), the World Health Organization, the Occupational Safety and Health Administration (OSHA), and our local public health department.

Lakeview Medical is proud to announce the launch of its expanded telemedicine services:

Telemedicine has the advantage of seeing your doctor or physician assistant without having to come to the office.

Services we can provide over a telemedicine video include:

- Medication follow-up
- New medication
- Disease counseling, lifestyle counseling, and preventive medicine
- Setting up/coordinating care and referrals
- Results discussion and plans for follow-up
- Hospital follow-up
- Treating common conditions including:
 - Cold or cough including basic coronavirus screening and advice
 - Hypertension (if you have a home blood pressure cuff)
 - Common gastrointestinal issues
 - Urinary tract infections (UTI)

If the visit does not require a physical exam, we can do it remotely from your phone or computer with a webcam. A text or email will be sent to you to start the visit.

Please note, televisits require a copay just like any other visit and are billed to your insurance company as an office visit consistent with NJ law.

Appointments can be made by calling our office at (973) 691-1111
