

Please be sure to follow all the steps listed to ensure maximum results. Please remember that even if you follow everything written in the instructions you may lose some of the color or get patches as everyone's skin heals differently. If this happens please call us to book your touch up appointment 4 weeks after your initial procedure but no later than 6 weeks (touch ups in this time period require a \$100 fee, any time after this time period will be considered a color boost and prices are listed below by your technician.

**Don't forget to ask about our
aftercare kit!**

(kit sold separately)

THANK YOU

We hope you enjoy your new permanent makeup!
Please feel free to leave us a review on our google business page!

Thank you for your Business!

AFTER CARE

INSTRUCTIONS

The following information is to help you care for your new permanent make up.

AFTER CARE INSTRUCTIONS

Splash water and dab ointment on treated area for best results!

Important Instructions for Showering

- Limit your showers to 5 minutes so that you do not create too much steam. Keep your face/procedure area out of the water while you wash your body, then, at the end of your shower, wash your hair.
- Your face should only be getting wet only at the end of the shower.
- Avoid excessive rinsing and hot water on the treated area.

To make things easier:

Use the shower shields that come in your after care kit.
(kit sold separately)

Absorb (Day of)

- After the procedure, gently blot the area with a clean tissue to absorb excess lymph fluid.
- Do this every 5 minutes until the oozing has stopped.
- Removing this fluid prevents hardening of the lymphatic fluids.

Wash (Days 1-7)

- Wash daily to remove bacteria, build up of product and oils, and dead skin. (Don't worry, THIS DOES NOT REMOVE THE PIGMENT!)
- Gently wash the area each morning and night with water and gentle soap or an unscented cleanser like our special permanent makeup soap sold at our salon only. Or Dial Soap, Cetaphil, or baby shampoo.
- With a very light touch, use your fingertips to gently cleanse the area.
- Rub the area in a smooth motion for 10 seconds and rinse with water ensuring that all soap is rinsed away.
- To dry, gently pat with a clean tissue. DO NOT use any cleansing products containing acids (glycolic, lactic, or AHA), or exfoliants.

Moisturize and hydrate (Days 1-7)

- Apply a tiny, rice grain amount of **Tina Davies Aftercare** 3 times a day with a cotton swab and spread it across the treated area.
- Be sure not to over-apply, as this will suffocate your skin and delay healing. The product should be barely noticeable on the skin.
- NEVER put the product on a wet or damp tattoo.

Important Reminders

- Use a fresh pillowcase while you sleep.
- Let any scabbing or dry skin naturally exfoliate away. Picking can cause scarring or loss of color.
- No facials, botox, chemical treatments or microdermabrasion for 4 weeks.
- Avoid hot, sweaty exercise for one week.
- Avoid direct sun exposure or tanning for 4 weeks after the procedure. Wear a hat when outdoors.
- Avoid long, hot showers for the first 10 days.
- Avoid sleeping on your face for the first 10 days.
- Avoid face-down swimming, lakes, and hot tubs for the first 10 days.
