Your Introduction of the Interaction between Two Separate Entities

First, Welcome to our genealogy family tree, under the name: Natchitoches Tribal Registry, L.L.C. (NTR). The official DBA (doing business as) is "Natchitoches Tribe of Louisiana," which was initially established on June 17, 2016, as a sole proprietorship of Fred D. Simon. The NTR, still under sole control of Fred D. Simon, was established to provide greater legal protection to the genealogy records and to the activities of individual family members who do tasks under the direction of Fred D. Simon, according to Louisiana L.L.C. rules.

The genealogy family group gained Official Certificate Recognition from the State of Louisiana in January, 2018, under the name "Natchitoches Tribe of Louisiana." Please watch the posted video of that political recognition of the genealogy records, both historical and recent family lineage. In an effort to regain our tribal legal heritage, United States Federal Tribal Recognition is our current project.

Second, This notice also welcomes you to the Natchitoches Nation Nonprofit Corporation (NN-NC), EIN 39-2212461. The NN-NC is the current legal way in which the Registry members may actualize their Tribal identity. NN-NC has 501c3 status with the IRS, which means that your donations to the Nonprofit Corporation are tax-deductible.

It also means that the charity is "public-facing" and serves the entire communities, nation-wide, associated with the family genealogy members. A Tribal Council CANNOT OWN or dictate the activities of a 501c3 entity, which must follow IRS tax rules. A 501c3 entity cannot be the sole property on any self-serving individuals or groups. A 501c3 entity cannot be a tribe (a genealogy family); it must be "public-facing." Check our website for details:

https://natchitochesnation.com/

The NN-NC is the legal transferee of the dissolved EIN 81-2980752 and now has ownership of three (3) acres and a Cultural Building in Campti, Louisiana, paid for by donations made by non-member individuals, grants, and members of the NTR (of which you are now a vetted member). This land was part of our ancient home land. This is our homecoming!

Our expenses of re-forming our Tribal Nation, which included the charitable educational mission of purchasing property and maintaining a Heritage Center in Natchitoches Parish, are the greatest financial concern. Your financial assistance is greatly appreciated. If you would like to donate, checks or money orders should be made payable to: ***Natchitoches Nation.*** Mail all donations to: 305 Third Street, Pioneer, LA 71266.

The Future: When we receive Federal Recognition as a Sovereign Indian Nation, the NN-NC will be dissolved and all its assets will be transferred to the Federally Recognized Natchitoches Tribe. Under that Federal status, the ownership status of all assets will change according to how Sovereign Tribal Citizens will vote. It is only at that point, when the Tribe gains Federal Recognition, can the Tribe be considered as a legal entity which can determine for itself how businesses will be conducted under its sovereign rights. ***Until then, the interaction of these two entities must remain separate in their business operations and under the laws of the State of Louisiana.***

Until we meet again, God bless America & God bless the Natchitoches Tribe, our genealogy family.
