

On behalf of Delaware’s youth – our future and even current leaders - from across the First State, thank you for your interest in supporting the fifth annual 2024 Delaware Youth Environmental Summit.

Sponsors are essential partners in ensuring that the Summit is free and accessible to any interested Delaware high school student and their teacher/advisors. The 2023 YES! summit in March was attended by more than **500 students** from more than **30 Delaware high schools!** The Summit features keynote speakers, panel workshops, educational exhibits, and informal learning opportunities. Each year a student leadership team is responsible for all aspects of organizing the Summit.

We are thrilled to announce that plans are well underway for the 2024 YES! Summit scheduled for Thursday, February 29 at Clayton Hall, Newark. A hybrid model now allows us to have an in-person learning environment while bringing in speakers from across the globe.

The Summit aims to be educational and inspirational, fostering and encouraging Delaware’s young adults to take leadership roles on environmental issues, in Delaware, the United States, and globally - wherever their lives might take them. Time is spent developing school action plans for students to bring about a growing network of certified green schools across the state, to save energy, reduce waste, and improve health. YES! aims to encourage their leadership as advocates on a wide range of environmental issues, from climate change and social justice, to tackling plastic pollution and fostering a culture of zero waste. In 2023 a College & Career track was added to promote green jobs and college programs that involve environmental elements.

Key organizers include representatives from Plastic Free Delaware, Zero Waste First State, Green Building United, the Charter School of Wilmington, Newark Charter School, Sierra Club Delaware Chapter, and **student leaders representing high schools from across the state.**

We invite your participation in the 2024 Youth Summit through becoming a partnering sponsor. Sponsors will be recognized with logo placement on advance materials, in media promotions, social media and web site placements, and event swag being provided to attendees (event t-shirts). Sponsorships ensure the event continues to be free to all interested students, covering all costs associated with the event, including the facility rental, food & beverages, honorariums and speaker fees, software and technological needs, web site

costs and event management, and swag for the students including reusable bags, water bottles, and participant t-shirts.

For more information, please feel free to contact us. Online form is available [HERE](#), or a paper form follows below.

***Thank you in advance for your support of the fourth annual statewide Youth Environmental Summit!
We look forward to seeing you on Leap Day, February 29, 2024!***

Dee Durham
Founder/Chair, Plastic Free Delaware/Zero Waste First State

YES! Sponsors will have their logo on all print materials as well as social media, web site and electronic communications regarding YES! Sponsorships ensure that YES! is free for students from across the state, from home schoolers to independent schools to public schools.
