

Wagner Extractor 2000: The True Blue Original is Still the Best!

For over **25 years**, **Extractor 2000** has been the industry standard for safe and effective rule pulling. **Made in the USA** to be dependable and durable!

Wagner Extractors feature smooth lever operation that generates up to 600 lbs. of safe, reliable and STRAIGHT-UP, kerf-saving, rule-pulling power!

ONLY Wagner Extractor 2000 features:

- **Quality; Designed & Manufactured in the USA**
- **A full set of pins for easy configuration**
- **A set of Urethane pads allowing the Extractor to be used on complex die formats**
- **25-YEAR RELIABLE INDUSTRY TRACK RECORD!**

Improved Jaw Locating System:

Extractor 2000s - feature jaw locator pins installed on the lever arms, these pins prevent the jaws from rotating or spinning, and make jaw changes even easier. (On New Extractors and those with serial #'s beginning in "52" and higher.)

EXCLUSIVE Urethane pads allow Extractor to rest on surrounding rule surfaces while pulling rule without causing damage to die.

Narrow Jaws are also available these custom-ground jaws allow rule pulling even in the most complex and tight rule layouts. **All genuine Wagner replacement Jaws fit all Extractor models.**

Don't be fooled by 'colorful' imposters. There is only one TRUE BLUE ORIGINAL - Wagner's EXTRACTOR 2000! Exclusively designed and built in the USA!
