

Henderson Platen Die Storage Sections

Easily convert your existing warehouse racks into Die Storage!

■ **Henderson Platen Storage Racks**, come in three styles: 1" T-Sections for Platen (flat) dies, 4"-spaced Bobst Sections for storing dies and stripping jigs together, and 5.5"-spaced Bobst Sections for storing dies, stripping jig and blanker together. All sections are 24" (2') wide, and are available in various depths - to fit a wide variety of existing/3rd party warehouse/pallet storage racks! 1" T-Sections can store up to 11 dies per 2' (24") section, 4"-spaced Bobst Sections can hold up to 6 Dies + Stripper per 2' Section, and 5.5"-spaced Bobst Sections can hold up to 4 sets of Die + Stripper + Blanker per 2' Section.

Henderson Platen Die Storage Sections can be used to convert conventional warehouse/pallet racks, into die storage that is safe, efficient and easy to implement into your facility!

Simply measure your existing warehouse or pallet racks, describe a few details and provide us with measurements. We'll then determine if your existing racks are compatible - chances are **they are!**

You can then easily bolt-on the convenience and safety of Henderson Platen Die Storage capabilities to your existing racks!

All you need are simple tools, our Storage Sections, and you'll convert your warehouse racks into Henderson Die Storage Racks.

Give us a call or send us an email, we can assist you getting started today!

HENDERSON
DIE STORAGE SYSTEMS
by Wagner Die Supply

■ Dies are suspended by 3/16" dia. x 1-5/8" long pins, holes can be lasered or routed into dies, or drilled to accommodate.

■ Henderson Platen Die Transport Carts provide a secure and convenient way to transport dies to and from storage to the press. Easy to use, they use the same "slot and pin" design as our versatile die storage sections!
