About us

We are a home interior studio dedicated to design and quality. With 10 years of experience, we create comfortable and convenient spaces using the finest materials, textures and colours. We address unique home challenges and prioritize our clients functional, aesthetic, and emotional needs. Our mission is to deliver exceptional, personalized minimalist homes.

One Stop Solution

Endless possibilities in a new home can be overwhelming. We help you choose and incorporate elements that turn your house into your dream home.

We offer a range of services to bring your vision to life: **Electrical Fittings, False Ceilings & Decorative Lighting, Wall Treatments, Modular Furniture, Movable Furniture, Modular Kitchens, Home Automation, Art, and Civil & Demolition services.** We make every element work together to create your ideal living space.

Monika Revankar

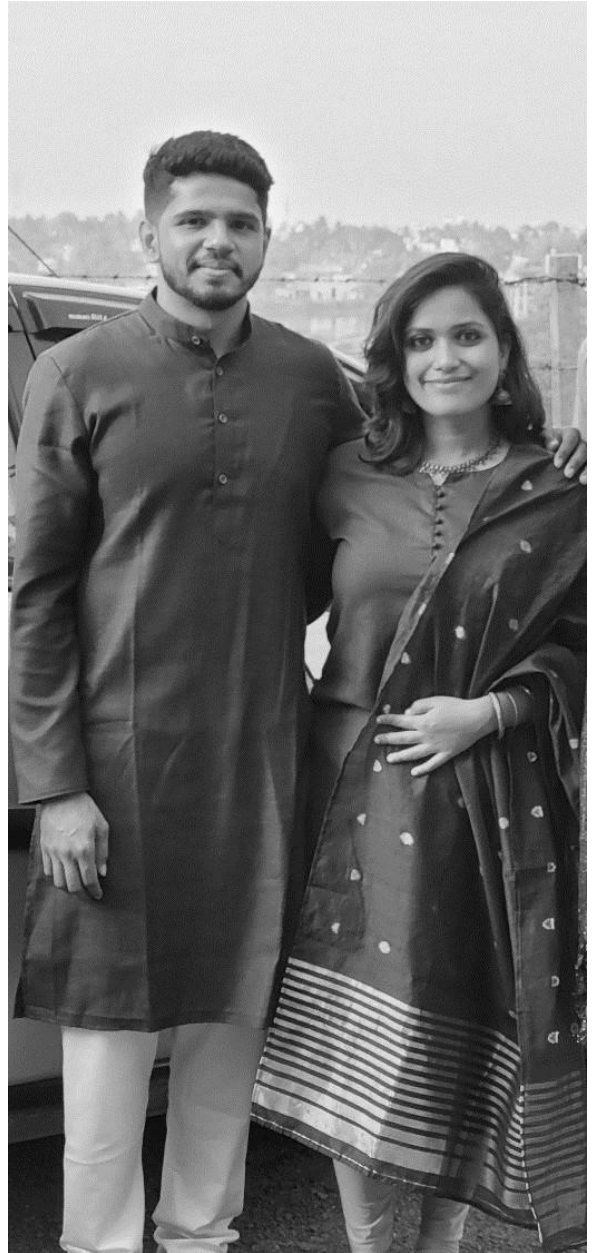

Co-Founder, Redgrid Architects

Architecture graduate from RV College, Monika has extensive experience in managing and designing residential and commercial projects at Total Environment Building Systems. She co-founded Redgrid Architects to deliver exceptional designs, drawing on her expertise in architecture, Interiors, and project management. Outside work, she enjoys traveling to the mountains and spending time with her family.

Harshavardhan

Co-Founder, Redgrid Architects

A Mechanical Engineer, Harshavardhan leads the execution at Redgrid Architects, ensuring precision and quality. Previously at Total Environment Building Systems, he combines his passion for design with hospitality, hosting Airbnbs in India. He's also a fitness enthusiast and avid biker.

Our Unique Approach
Here's What Sets Us Apart

Inspired By Vision

Watching your home take shape is a rewarding experience. What was once an empty space transforms into the sanctuary you've always dreamed of. Every decision, from wallpaper to furniture, reflects your unique style and attention to detail, creating the perfect backdrop for cherished memories.

Let's make your dream home a reality.

The Design and Execution – 8 steps process

At Redgrid Architects, **our 8-step process** ensures a seamless design-to-execution journey with active client involvement.

Step -1

1.Understanding Client Requirements and

Determining Investment: We begin by understanding your needs, preferences, and vision. We then establish a budget that aligns with your expectations.

Step -2

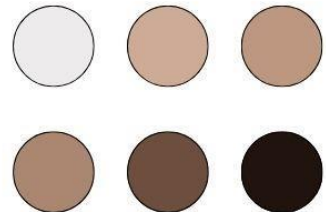

2. Mood Board Creation: We create a mood board to capture and refine your taste and style.

Soft textures, warm lighting,
and a touch of elegance create
the perfect escape.

Customizable Comfort This
design can be tailored to your
specific style and needs.

Step -3

3.2D, 3D, and 3D Walkthrough Visualizations and Material Selection:

Detailed visualizations, including 2D plans, 3D models, and walkthroughs, help you visualize the design. We also guide you in selecting materials for quality and aesthetic appeal.

Step -4

4. Detailed Drawings and Approval:

We create detailed drawings for your approval. Once approved, these are sent to our factory, and we proceed with material procurement.

Step -5

5.Client Transparency and Factory Access: We provide a comprehensive project schedule and ensure full transparency. You can visit the factory anytime to observe progress and quality firsthand.

Step -6

6.Pre-installation Quality Control (QC): At the factory, we conduct a thorough pre-installation QC by assembling the furniture to check for mistakes, ensuring everything is perfect before delivery.

Step -7

7.Delivery and Site Assembly: After QC, items are wrapped with corner seal and delivered to the site. Our experienced carpentry team assembles everything on-site, ensuring flawless installation.

Step -8

8.Handover and Quality Control Report: After assembly, we perform a final QC and prepare a detailed report. This, along with the completed project, is handed over to you, ensuring everything meets our high standards and your expectations.

Our process is systematic and easy to understand, ensuring you feel confident and involved at every step, guaranteeing a smooth project completion with the highest quality.
