

PROVIDING MANNING,
TECHNICAL OPERATIONS
AND SURVEYS TO
SHIP OWNERS

oceanone*sm*
Propelling Your Future

Aim

To provide service to the ship owners for all shipping related activities including Crewing, Technical Management, Surveys, Pre-vetting Audits, Chartering etc.

Vision

To be a world leader and become an Industry benchmark in International Ship Management.

About Us

We aim to shape the maritime industry.

Ocean One Ship Management is a premier ship management company valued by its clients and partners in the industry for its high-end professional expertise and services. We expertise in the following key areas: Crewing, Technical services, Inspections/Surveys. We cater to vessels trading across the world (LNG Vessels, VLGCs, Oil Tankers, Chemical Tankers, Container Vessels, PCC, Bulk Carriers, OSV).

Our Promise

To set a new benchmark for the cost optimised quality service.

We ensure all vessels under our management meet the international certification, commercial and technical requirements; and are efficiently operated to the satisfaction of the owners and charterers at all times.

OUR SERVICES

Manning Services

Manning is the key to managing the vessel's operations, right from its takeover until scrapping it. The team at Ocean One Ship Management ensures only the well experienced, skilled and trained seafarer join your fleet. Broadly, our crew management services include recruitment, management, training and development, payroll and travel logistics.

Complete Technical Management of the Vessels

Provide complete technical management of the vessels by improving operating procedures and streamlining various processes to maximise cash flow. Our technical and marine team is always at the forefront to maintain the vessel in compliance with all regulatory requirement and operate the vessel to highest industry standards. This allows optimal utilization of the vessel by all stakeholders.

Pre-Vetting/ Inspections/ Surveys

Vetting Inspections are generally a snapshot evaluation of your operating procedures, implementation, and condition of the vessel and her equipment. It is essential to keep your vessels prepared all the time for the vetting to minimise the commercial impact.

We have specially designed ship inspections to evaluate the preparedness of the vessel for the upcoming vetting inspections. We provide truly independent advise on potential gaps and risks and how to mitigate these gaps..

Capt. Jagdeep Kahlon

He has been at sea since 1998. After completing his cadetship on oil tankers, he has sailed on various kinds of vessels including Oil Tankers, VLGCs & LNGs. For the past 12 years he has been sailing with MOL in various ranks on their LNGs.

After getting command in 2016, he has commanded 5 LNG vessels. He now has a total command experience of 2 years on LNG vessels.

He is also actively involved in mentoring and counselling startups at the Thapar Institute of Engineering & Technology since 2016.
