Distribution

Tokáhe Distribution is Minnesota's trusted cannabis distribution facility, serving the entire state with organically grown, high-quality products. Our cannabis is cultivated on our own farms and in partnership with top-tier growers and manufacturers, ensuring premium flower and products reach dispensaries across Minnesota.

We proudly distribute Grasslandz, Island Peži, True Canna, Lakeside Cannabis Co, You Betcha, and Nebula, bringing trusted brands directly to you.

Minnesota deserves the best - and we're here to deliver.

Minnesota's premier cultivator, dedicated to growing cannabis with integrity and intention. Our regenerative cultivation practices restore the land, support biodiversity, and yield cannabis that is naturally vibrant and full of character. Just as regeneratively grown food is richer in nutrients and antioxidants, cannabis cultivated in Good Steward's living, thriving soil produces a cleaner, more complete plant.

Good Steward offers a diverse range of sun grown, greenhouse, and indoor vertically cultivated flower - all nurtured in locally crafted regenerative living soil, free from synthetic additives. Our flower serves as the foundation for premium live rosin and THC distillate concentrates, pre-rolls, and cannabis-derived edible products, delivering a pure and elevated experience.

Grasslandz

Grasslandz is a cannabis brand where intentionality meets quality. Our passion for cannabis is rooted in our commitment to regenerative farming and delivering a product with a purpose.

Regenerative farming, as practiced by Good Steward on behalf of the Grasslandz brand, is about giving back more to the earth than we take. It involves methods like cover cropping, reducing soil disruption, and encouraging biodiversity to create fertile land that improves year after year and is circular in nature. This sets us apart by focusing on renewal and long-term land vitality rather than just maintaining current conditions.

Once our plants have bloomed, our detail-oriented and compassionate team work to harvest the plants to ensure they keep their integrity, quality, and are the best possible product once they hit retail shelves. All processes are done by hand, just as they should be.

Mini Prerolls

Each pack has TEN .35 G pre-rolls all rolled up and ready to smoke! Perfect for an evening stroll and always crafted with care and sustainability in mind.

Disposables and Cartridges

Cannabis vaporizers are a great way to consume discreetly and consistently. Vape cartridges contain concentrated cannabis oil that is heated by a battery and vaporized for inhalation.

Happy One Year Island Peži!

Island Peži Celebrates a Milestone Year!

The elevated celebration marked 1 year of hard work and accomplishments for Island Peži Dispensary.

Two food trucks joined in on the fun as well as a DJ and free photo booth for attendees to enjoy. Island Peži featured a prize wheel offering rolling trays, stash jars, key chains, and coupons while North Star Canna debuted the limited edition Lakeside Camp Box that was exclusively featured inside the dispensary.

Higher Grounds for Appreciation!

Tokáhe Distribution, North Star Canna and Island Peži joined forces to celebrate the incredible team members who drive our success. We took a break from our daily hustles to show appreciation for the hard work, dedication and passion that each person brings to the table in this first full year of operations. The fun-filled afternoon consisted of sharing stories and accomplishments, a delicious BBQ, tasty snow cones, and outdoor games.

It was the perfect opportunity to bond, share our accomplishments, and celebrate the team work that make our companies thrive. We look forward to hosting many more celebrations with our community and partners.
