

OUR COMMITMENT TO SUSTAINABILITY

WE RAISE ALL OF OUR BEES ON SMALL, FAMILY-OWNED, LOCAL FARMS.

The fresh, never touched-by-human-hands honey you experience with your guests is guaranteed to come from local, family-owned and operated farms, right here in Central Florida. The bees that make our honey play an important role in our local ecosystem and economy. They work tirelessly to collect nectar and pollen from wildflowers, orange groves, flowering crops, trees and clovers. In doing so, they pollinate the hundreds of thousands of plants that will eventually produce the fruits and veggies you find at local farmers markets and grocery stores, and the gorgeous flowers that beautify the roadsides of Florida. Bring your guests together over a shared experience that broadens their perspective.

WE LOVE OUR BEES, AND HAVE A PASSION FOR SHARING THAT LOVE WITH OTHERS.

Our goal with The Honey Frame Co. is to not only give your guests an unparalleled experience in farm-to-table indulgence, but to open an avenue for dialogue and inspire curiosity in our natural world. We aim to kindle your guests' interest regarding the essential role that bees and other pollinators play in our food systems. Supporting local beekeepers means supporting local farmers who need our bees to pollinate their crops. Getting food locally cuts down on fossil fuels needed to ship produce across the country, AND boosts local economy, which in turn creates a healthier, happier Florida. We're all in this together, and we'd love to have your support.
