Cut, Create & Grow

A playful cutting pack for little hands

Snip • follow • turn • create

Choose an activity that feels achievable and fun today.

1. Get ready

Sit at a table with feet supported. Use child-safe scissors.
An adult can prepare strips or make a starter cut.

2. Find your starting point

The dashed navy lines show where to cut.
Keep thumbs facing up and the helping hand clear of the blades.

3. Make it your own

Try one strip or a whole page. There is no need to finish.
Colour first, cut next, then use your pieces to make something new.

4. Celebrate the process

Notice effort: “You turned the paper around that corner!”
Take breaks and try again another day if hands feel tired.

Inside the pack

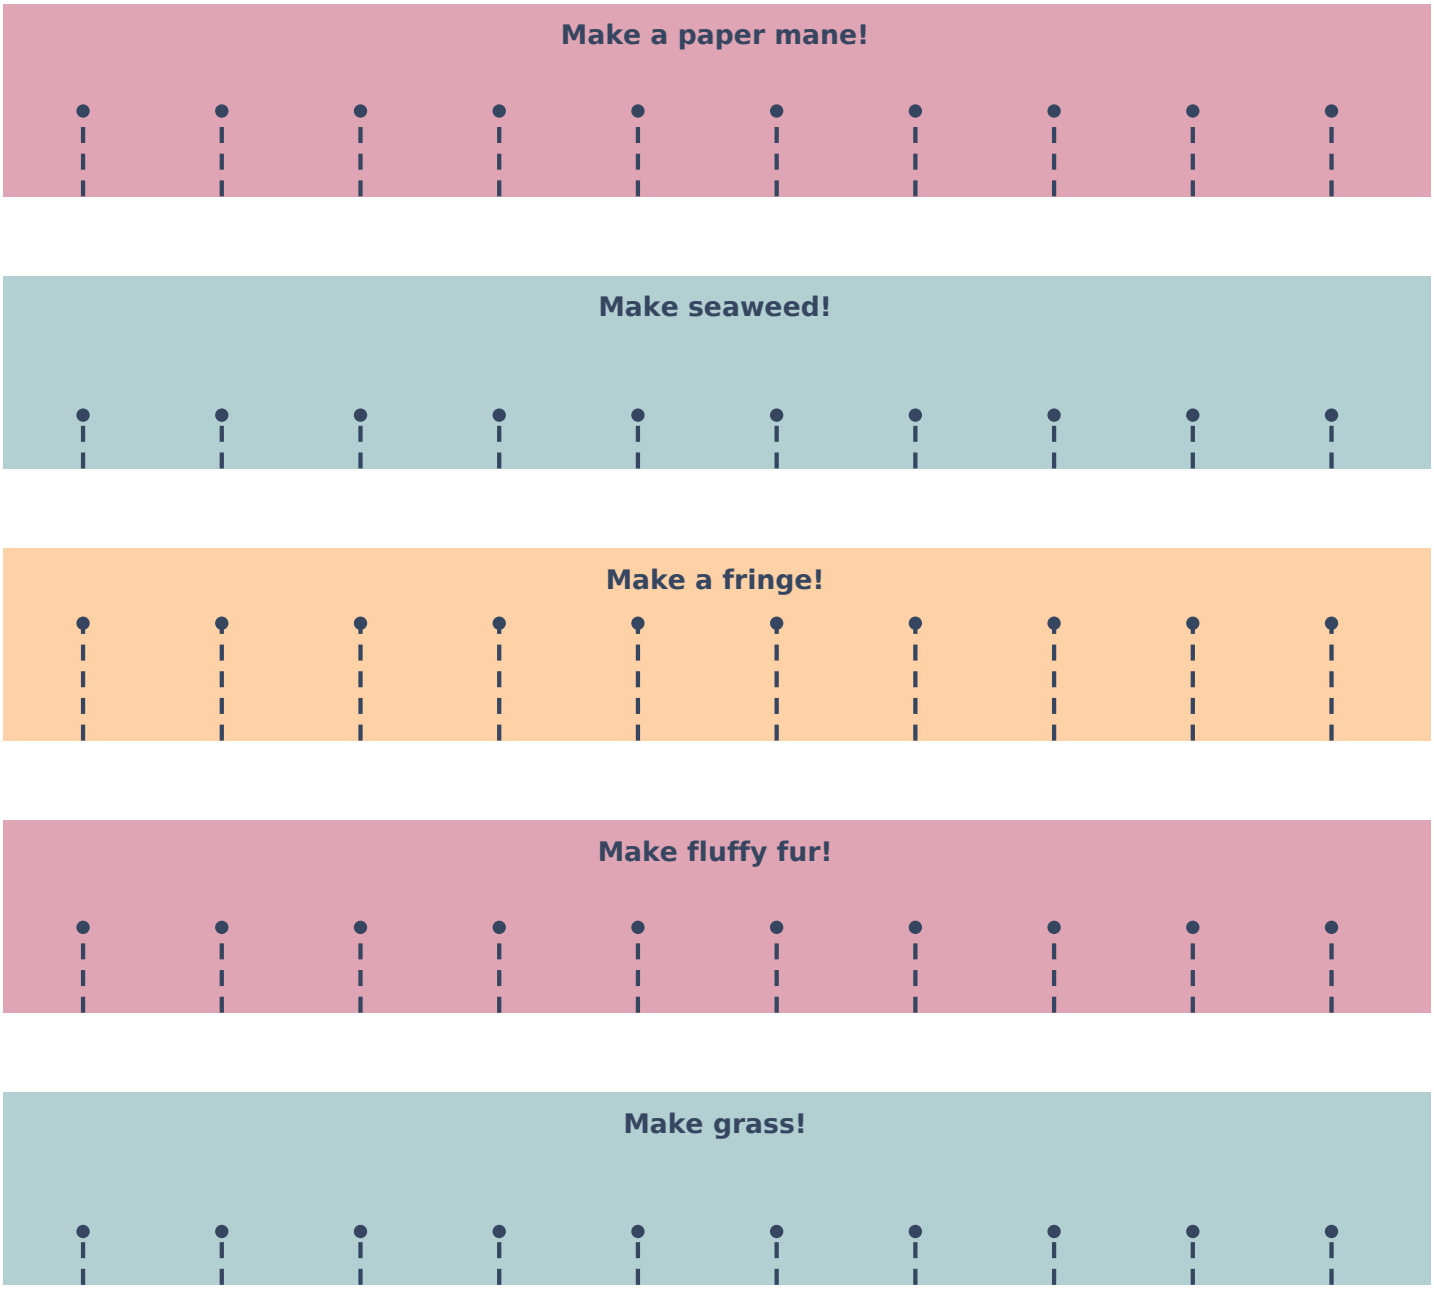

Short snips • straight paths • waves • zigzags
Shape garden • monster hair • shape collage

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

Little Snips

Adult: cut apart the five horizontal bands before offering them.

Start at the bottom of each strip. Snip up to each dot.

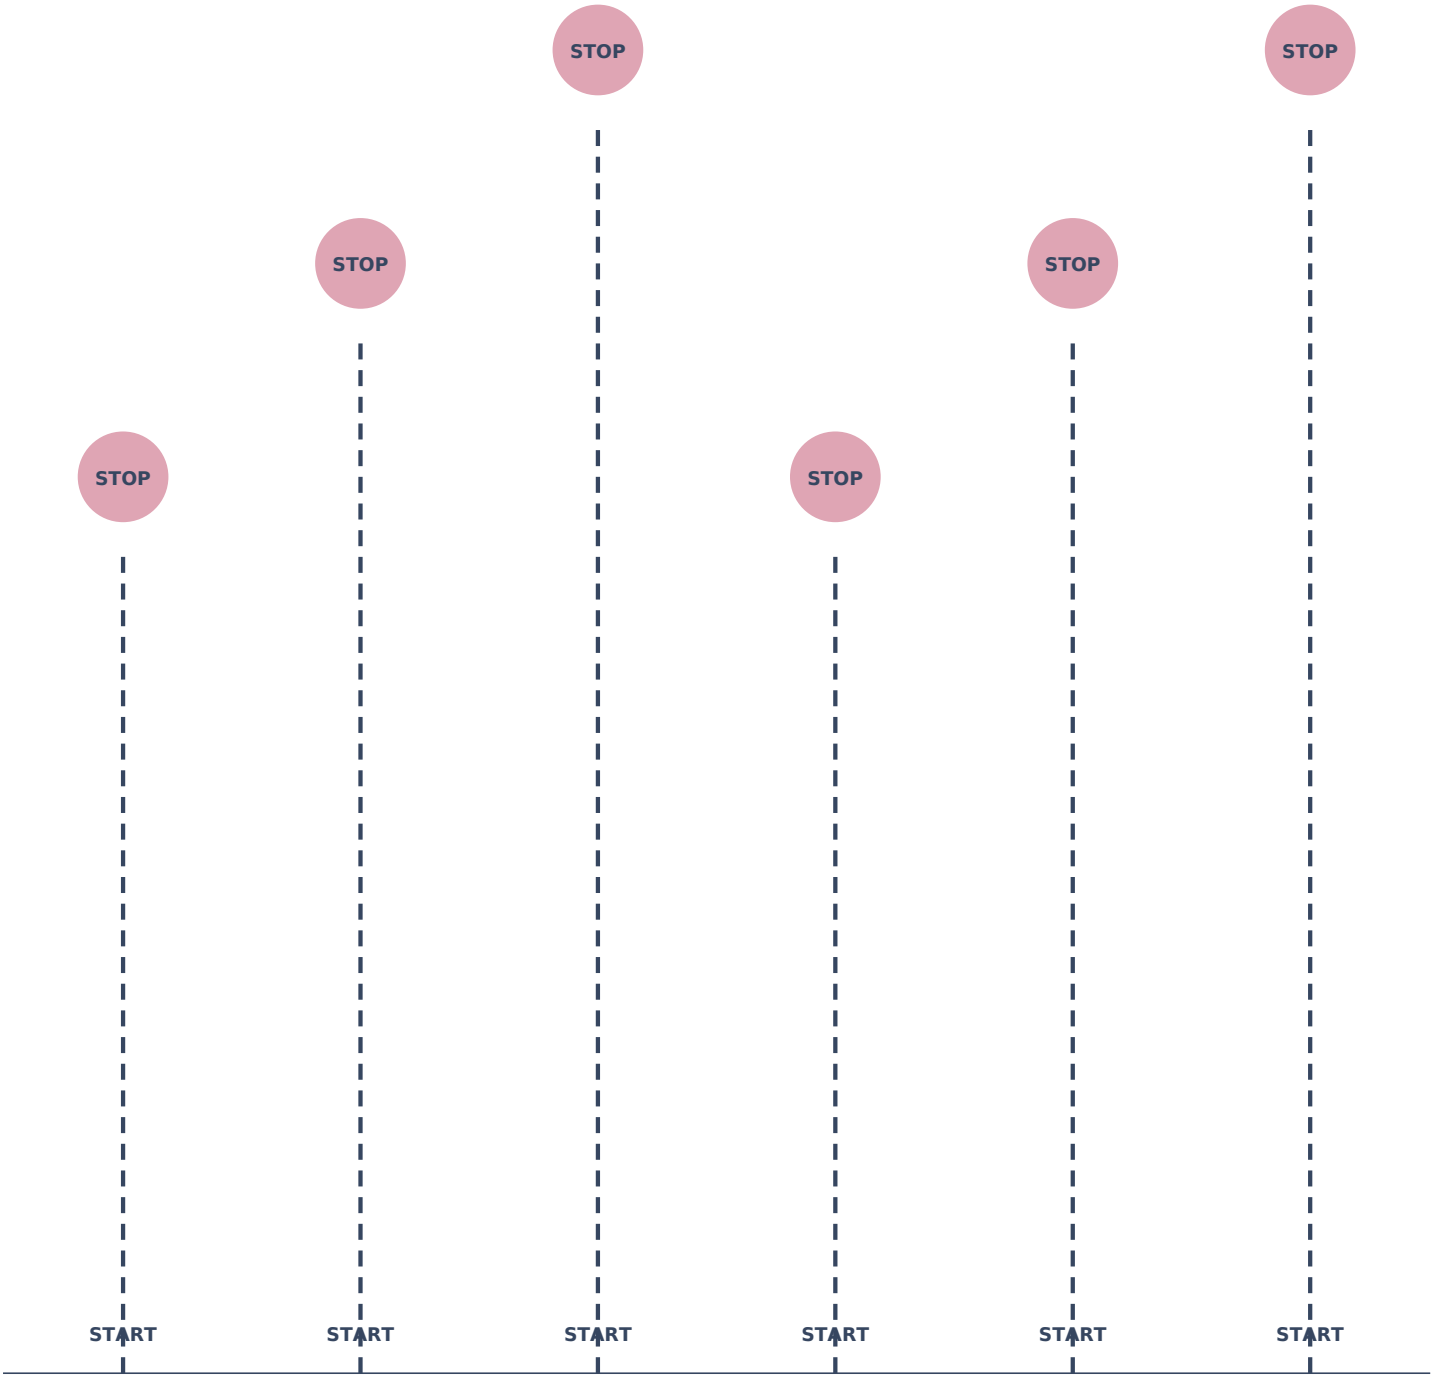

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

Ready, Steady, Stop!

Cut up each straight path from the trimmed edge to the stop sign.

Pick a path. Open, close and move your scissors forward.

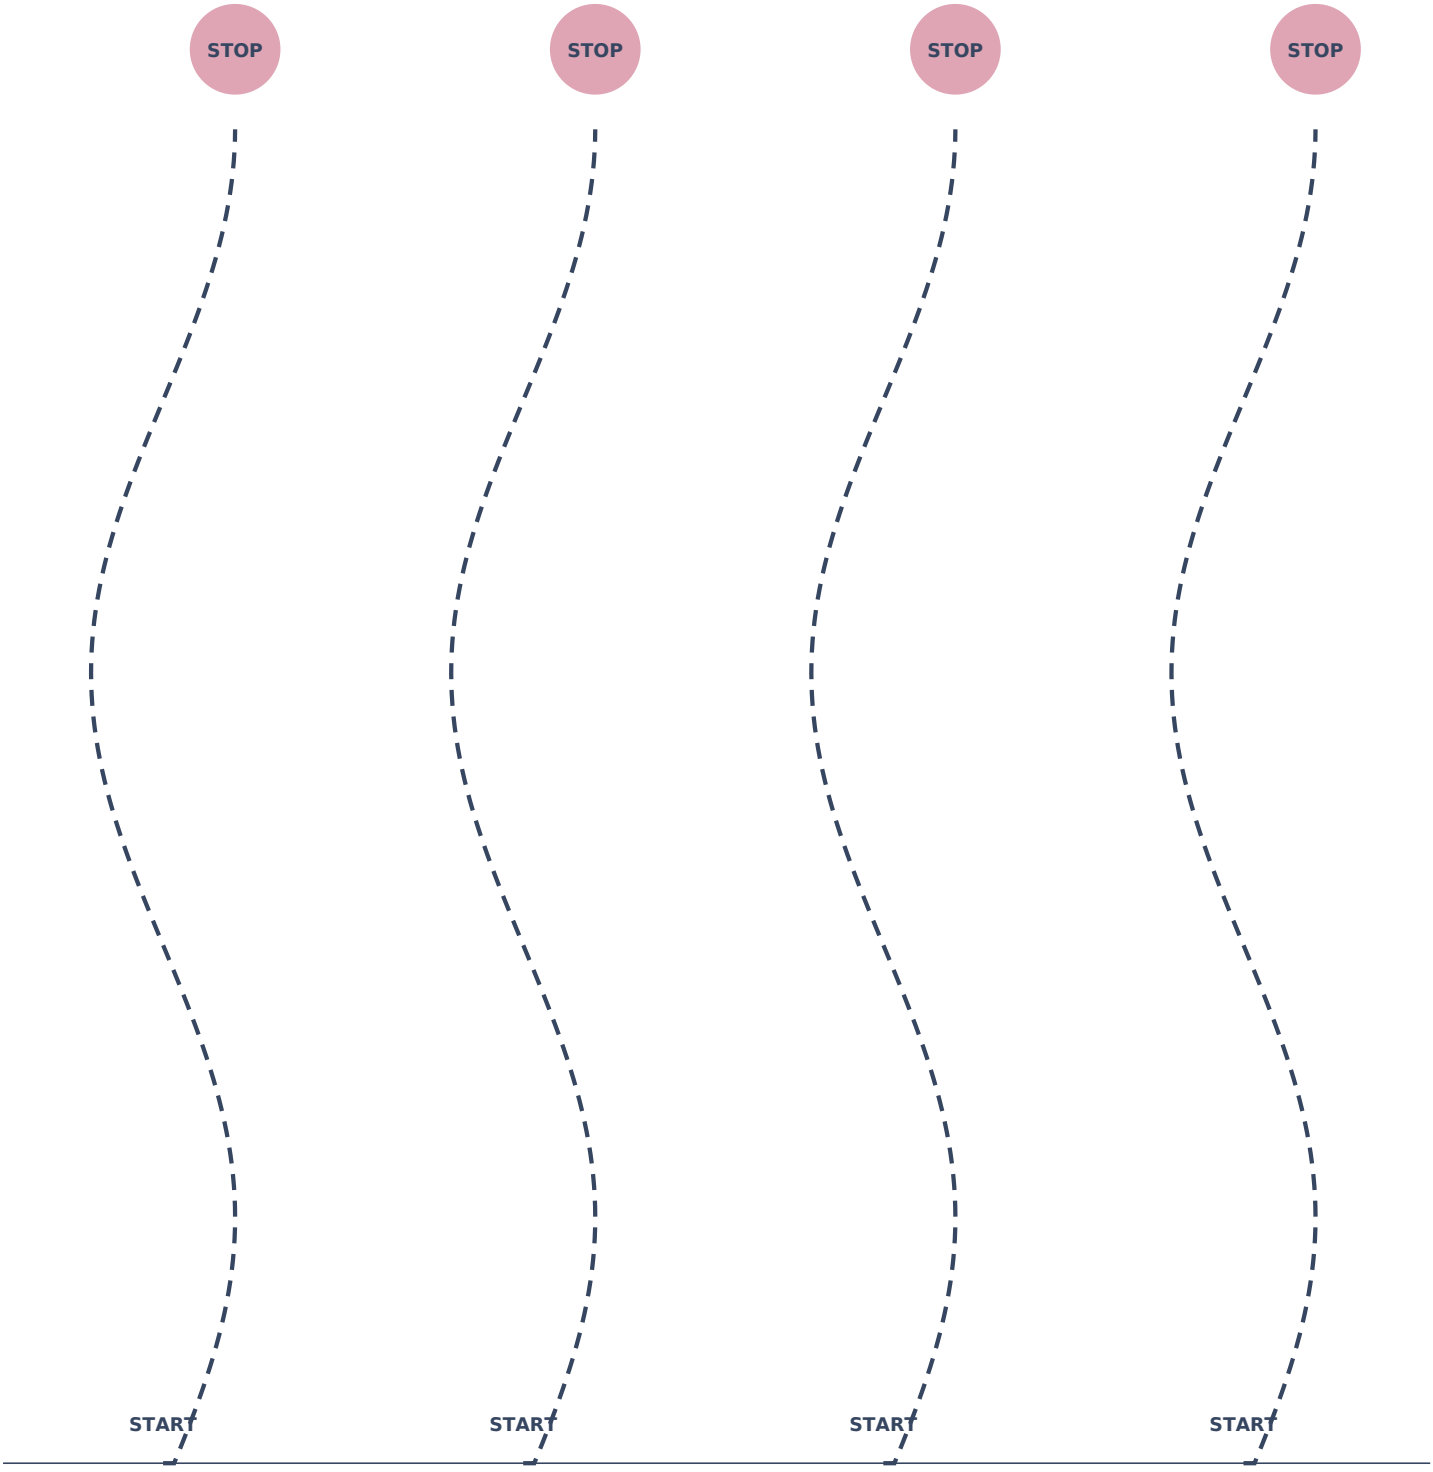

Adult: trim off the bottom along the solid line to create a starting edge.

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

Ride the Waves

Start at the trimmed edge. Turn the paper to follow each wave.

Imagine you are sailing through a gentle sea.

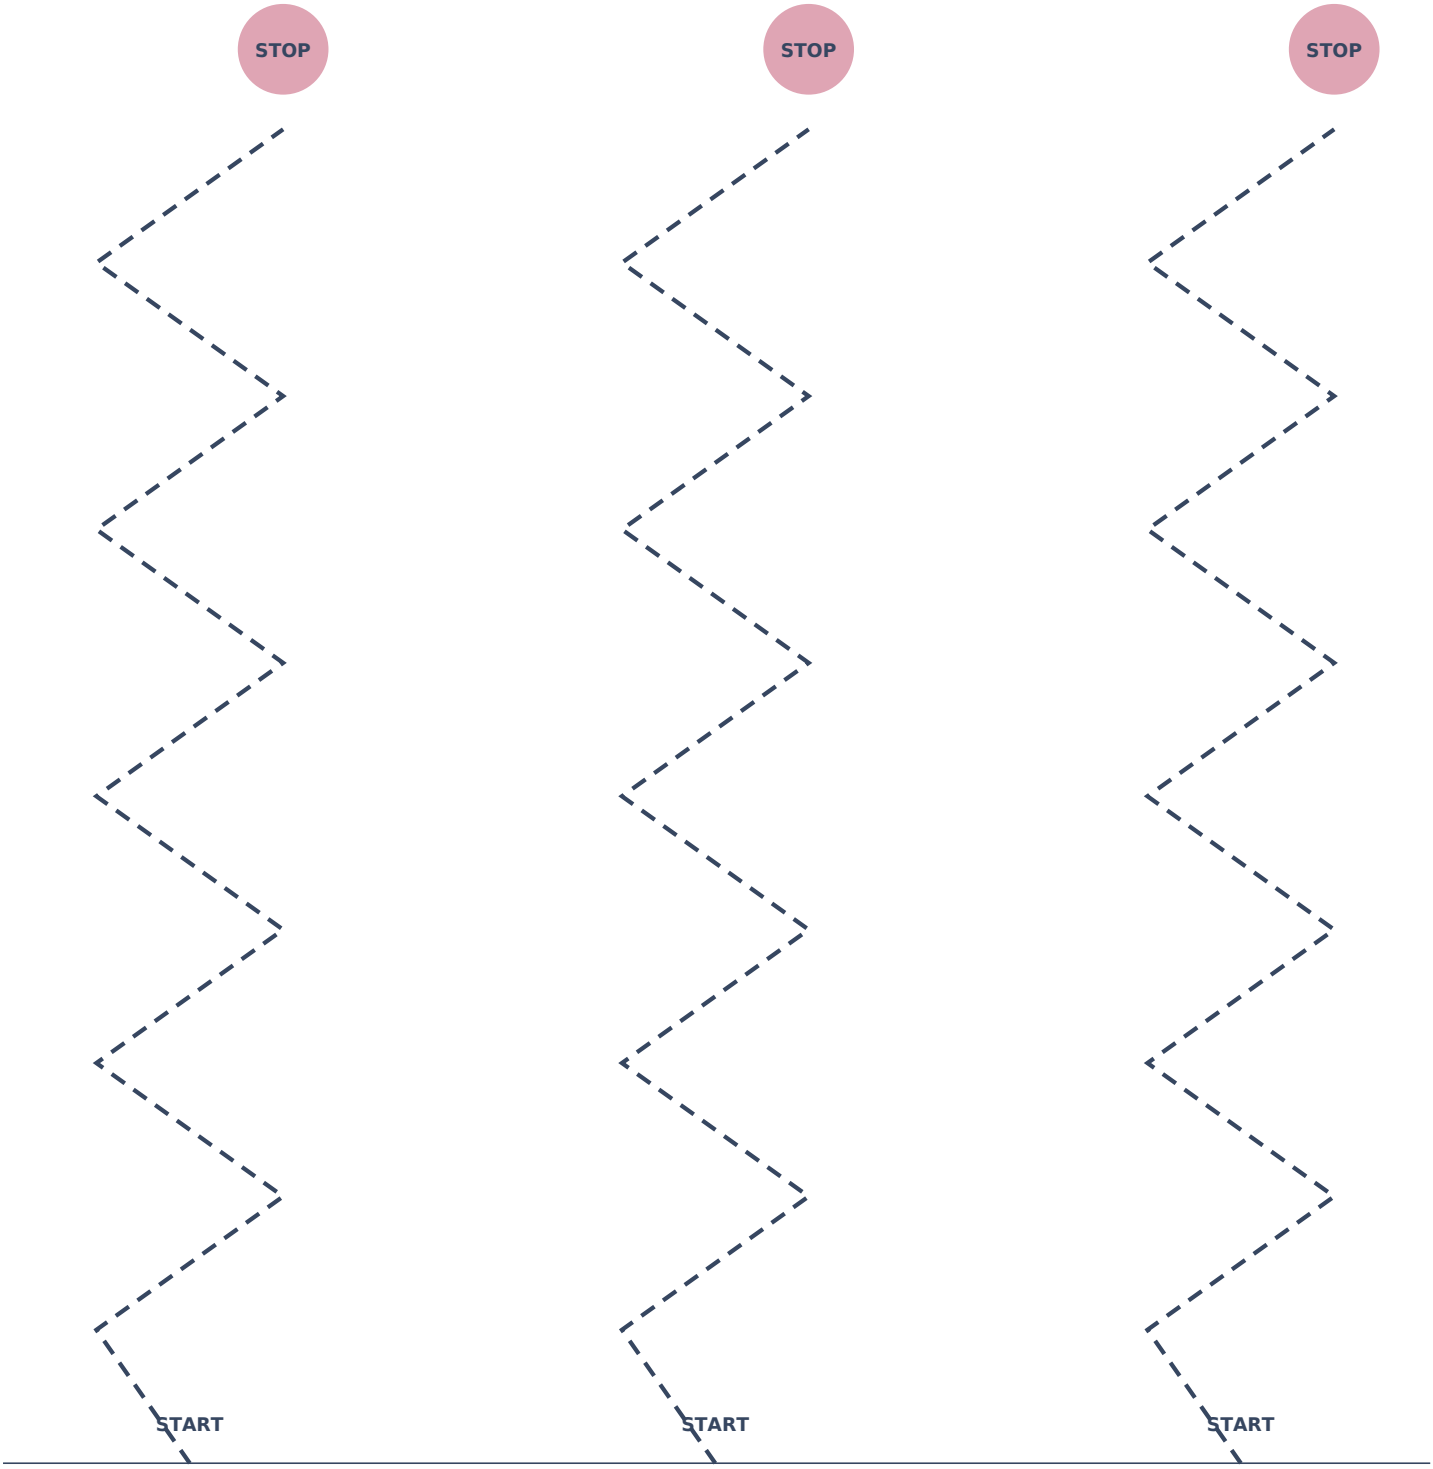

Adult: trim off the bottom along the solid line to create a starting edge.

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

Mountain Adventures

Start at the trimmed edge. Pause and turn the paper at each corner.

Climb the zigzag trails to the mountain tops.

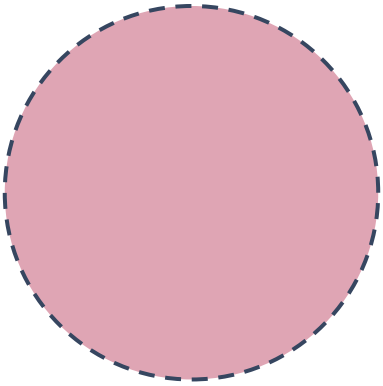

Adult: trim off the bottom along the solid line to create a starting edge.

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

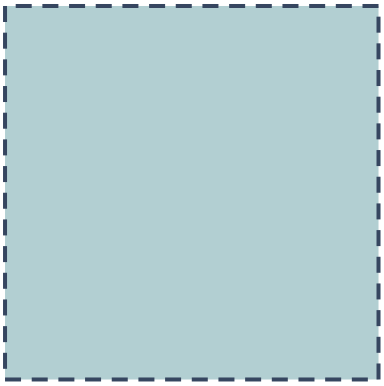

Grow a Shape Garden

Adult: separate the four panels. Help make a starter cut if needed.

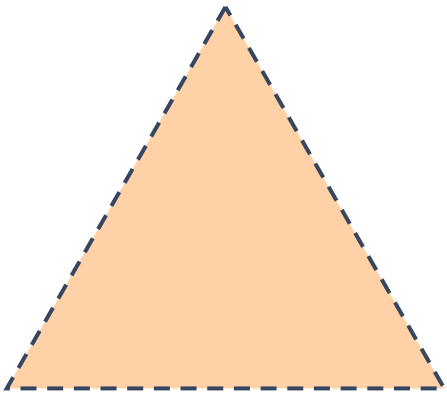

Cut around the dashed shapes. Draw stems and leaves on spare paper.

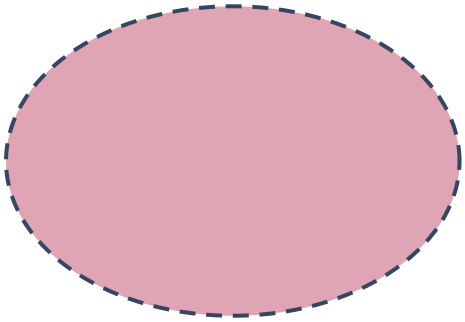

Circle

Square

Triangle

Oval

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

Give a Monster a Haircut

Adult: cut out the large rectangle. The fringe edge becomes the starting edge.

Snip along the hair lines, then draw a face and decorate your monster.

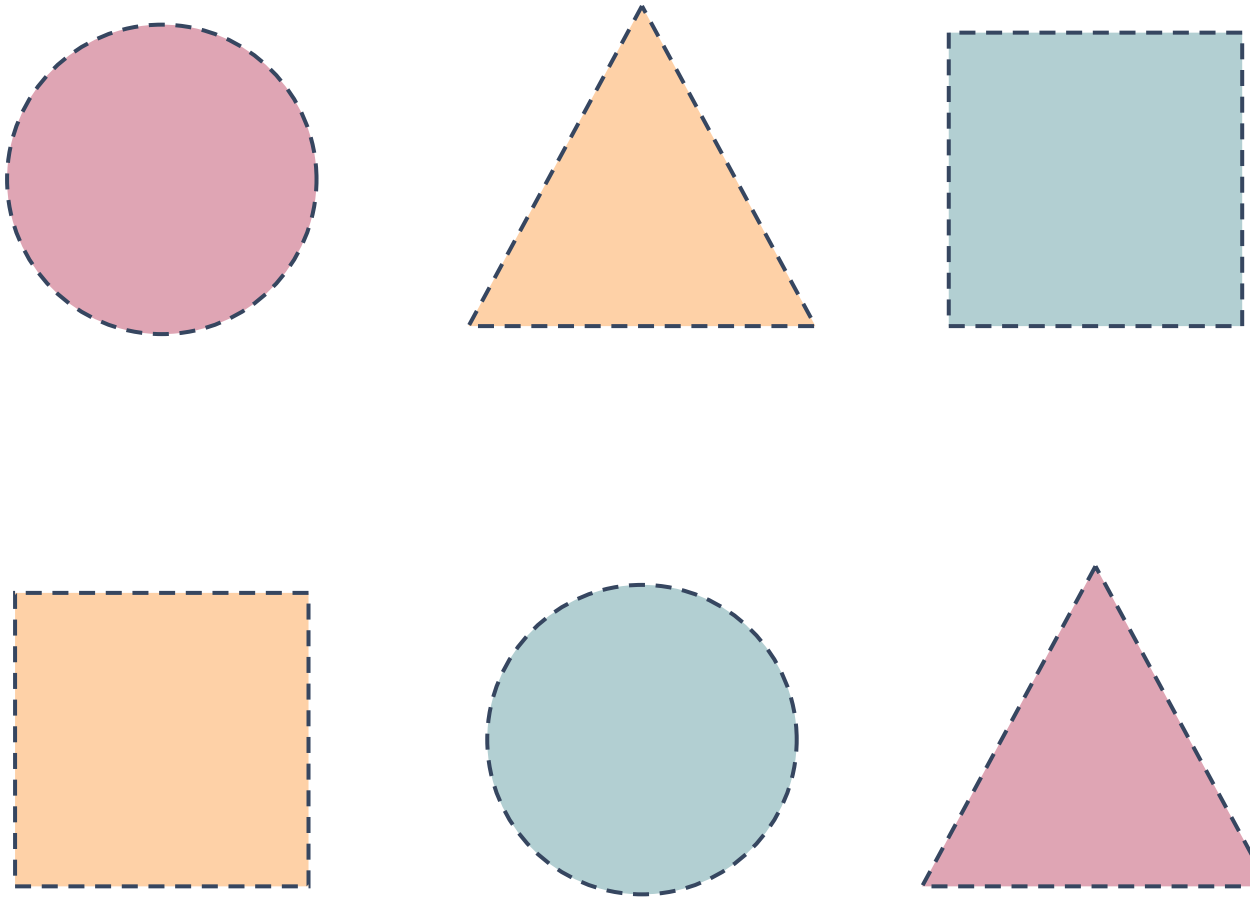

Start at the top edge of the cut-out rectangle. Stop at the dots.

Adult supervision. Use child-safe scissors. Pause whenever you need a break.

Build a Wonder World

Adult: separate the shapes and help make starter cuts as needed.

Cut, arrange and glue the pieces onto spare paper. What will you create?

A house? A robot? A rocket? An entirely new creature?

Add drawings and tell someone about your creation.

Adult supervision. Use child-safe scissors. Pause whenever you need a break.
