

**Too many veterans involved in the justice system are struggling with untreated PTSD, traumatic brain injury, and other service-connected conditions.**

**And too often, they leave incarceration without the care, benefits, or support needed to successfully reenter society.**

This gap increases the risk of recidivism, crisis, and homelessness.

Vietnam Veterans of America (VVA) urges you to contact your Senators and support S. 4162, the *Get Justice-Involved Veterans BACK HOME Act*.

S. 4162 focuses on rehabilitation, treatment, and successful reentry by expanding VA mental health care for incarcerated veterans, improving coordination with correctional systems, and helping ensure benefits and services are in place upon release.

**Urge your Senators to support S. 4162.**
